PART - I

**VERIFIABLE SCIENTIFIC PROOFS REVEALING
THE EXISTANCE OF THE CREATOR**

FOREWORD

We are happy in presenting you this unique book of facts. No dogmos; no legends; no falsehoods and no imaginations; no baseless faiths.

Truths which cannot be verified by proofs are not included in this book.

The research and compilation of this book has been done with a single motive. It is to prove that

- i. There is a CREATOR.
- ii. He is mindful of all of his creations.
- iii. AL QUR'AN is HIS last and final scripture.
- iv It gives complete guidance to whole humanity for its success in this world and the life hereafter.

This book is unique in two more aspects also.

Aspect No : 1

The compilers do not feel that their responsibility ends with presenting this book to the readers. But they are fully anxious to clear all doubts of the dear readers by any mode of communication like - correspondence, 'E mail', direct meeting if it is convenient for both, discussion forums, etc.

We promise that we will be honest and straight forward in such interactions and will not resort to the mean technique of '**Convince or Confuse**'.

Our honest goal will be "**Convince or get convinced**".

We know such interactions are going to benefit both of us enormously and will be immensely useful to refine our concept of this subject.

Aspect No:2

If you are not satisfied with this book you can return it and take back the money you paid, less the book seller's commission at any time.

Now we have come ABOVE THE PLANE of depending only upon SACRED BELIEFS only for our religious faiths. And now we have reached the convincing position of showing VERIFIABLE PROVEN SCIENTIFIC TRUTHS to establish the existence of the CREATOR and ISLAM as HIS RELIGION.

So, our greatest concern now is to bring this ABSOLUTE TRUTH to your knowledge and once and for all rescue you from the evil consequences of all the prevalent falsehoods.

INTRODUCTION

THE BEGINNING.....

Ever since the mankind appeared on earth, the people endowed with thinking capacity and wisdom were always wondering,

WHY THEY ARE HERE IN THIS WORLD!

AND

WHAT IS THE TRUE PURPOSE OF THEIR LIVING!!

In the enormous time that has passed from their appearance on this world till today the Human race has grasped in their wisdom so many secrets of NATURE and LIFE, but still it is only groping in darkness and great doubts about:

HOW THEY HAVE COME TO EXISTENCE!

AND

WHETHER THERE IS ANY MEANINGFUL PURPOSE FOR THEIR LIVING.

The most wonderful FACULTY OF HUMAN MIND has spun so many philosophies about these BASIC QUESTIONS.

Almost all of the philosophies have developed the concept of GOD the CREATOR and RELIGION with their own innumerable different varieties of reasons and beliefs. But till now none of the philosophies are able to give the required conclusive proofs to make their concepts acceptable to HUMAN WISDOM.

we have now reached the SCIENTIFIC AGE without yet solving the basic questions of GOD and RELIGION. Solving these basic questions in this scientific era has become much more difficult than in earlier ages of DOCILE SUBMISSION TO SACRED BELIEFS.

This is because, the SCIENTIFIC ERA will require verifiable and acceptable scientific proofs for believing

anything. It will simply reject everything that are not proved.

As we have invited you in this book of 'UNIVERSAL CALL' for knowing your CREATOR - GOD, we have to convince you with verifiable and acceptable scientific proofs while establishing the existence of such a CREATOR.

Luckily now, the GREAT SCIENTIFIC ERA itself has provided all the conclusive, verifiable proofs needed for establishing the existence of GOD the CREATOR by its own discoveries.

Let us go through in two steps to conclusively prove the existence of the GOD the CREATOR.

Ist step:

Proving through scientific findings which reveal that without a CREATOR none of the LIVING THINGS INCLUDING US, could have come to existence.

This is given in the PART - I of this book.

IInd step:

'Proving the existence of the CREATOR through the scientifically verifiable miracles given by the CREATOR HIMSELF in HIS last and final SCRIPTURE AL QUR'AN.

This is given in the PART - II of this book.

After providing CONCLUSIVE AND IRREFUTABLE VERIFIABLE SCIENTIFIC EVIDENCES for the existence of the CREATOR, we come to the most essential and vital part of this book, namely understanding the complete guidance given by the CREATOR for the WHOLE OF MANKIND for the correct way of their living, which is given in HIS last and final scripture AL QUR'AN

This vital portion of this book is given in PART - III of this book.

With this preamble let us enter the PART- I of this book

CHAPTER - I

RELIGIONS AND INTELLIGENSIA

Almost all the religions say that the entire UNIVERSE and all the LIVING THINGS are CREATED by AN ALLWISE and ALL POWERFUL SUPREME BEING.

Almost every one of the religion declares that there is only one SUPREME BEING, as said very strictly in ISLAM, and with various modifications in other religions like

JUDAISM believing in a SUPREME BEING with UZZAIR (a.s.) (EZRA) as HIS son,

CHRISTIANITY believing in TRINITY with SUPREME BEING, his son ISA (a.s.) (JESUS) and the HOLY SPIRIT and

HINDUISM believing in SUPREME BEING as envisioned in PARAMATHMA and in innumerable SUB - GODS.

Against this concept of CREATION many scientists and materialistic intelligentia all over the world are saying that there is nothing other than matter that existed for all the eternity and once upon a time millions of

conscienceless atoms of elements some how joined together SPONTANEOUSLY to form AMINO-ACIDS, PROTEINS, DNA ETC., and then incredibly arranged themselves together to create the FIRST LIVING CELL and from this CELL all living organisms came into being by a process of EVOLUTION based on NATURAL SELECTION and random MUTATIONS.

Now let us consider the correctness of these two ideologies to establish beyond any doubt and once and for all as to which is true and which is false.

Let us start from examining the living things and how they must have come into existence.

CHAPTER 2

AMINO ACIDS AND PROTEINS

PROTEINS are the building blocks of life and there are 20 AMINO ACIDS making up the proteins. So far no attempt has succeeded to show that Amino acids and Proteins could have been formed by 'CHANCE' on the LIFELESS earth BILLIONS of years ago in premordial earth conditions from conscienceless atoms of elements.

Even with all the controlled experiments carried out in laboratories which are completely different from the chaotic premordial conditions, every attempt went to prove more and more firmly that it is ABSOLUTELY IMPOSSIBLE for them to have been formed by 'CHANCE'

There are hundreds of thousands of types of proteins in plants and animals, from the simplest organism to the most profound ones, each protein consisting of starting from fifty to many thousands of left handed Amino acids, (No right handed Amino acid is allowed. Inclusion of even one right handed Amino acid will render the

protein into useless proteinoid) arranged in PARTICULAR SEQUENCE and in certain QUANTITIES and STRUCTURES and only with PEPTIDE BONDS.

The probability of an average protein Molecule with 500 amino acids coming to existence by "CHANCE" following the simplest and straightforward trial and error method is $1/10^{950}$. Probability of even $1/10^{50}$ is accepted as 'O'. Hence this probability of $1/10^{950}$ happening is ABSOLUTELY IMPOSSIBLE. Just for appreciating the enormity of the figure 10^{950} it will be interesting to know that the total number of the particles in the region of Universe that we can observe is estimated to be 10^{79} only.

Even the supposed age of earth will not be sufficient to produce even one single protein.

CHAPTER 3

CELL

When the “CHANCE” formation of even ONE SINGLE PROTEIN is absolutely impossible, it is Billions of times more impossible for about 1 million of different types of proteins to come together properly by “CHANCE” to make a complete HUMAN CELL.

Furthermore a HUMAN CELL is not just a heap of proteins alone. It has Nucleic acid, Carbohydrates, Lipids, Vitamins, Ribosomes and many other chemicals like electrolytes etc., arranged in a specific proportion, harmony and design in terms of both structure and function as comolecules in various organelles carrying out the functions of the CELL.

A CELL is more complex than the biggest city in this world with all its operational systems of Communications, Transporations and Management.

It contains -

(i) POWER STATIONS to produce the energy consumed by the cell,

(ii) FACTORIES manufacturing proteins like ENZYMES, HARMONES etc. essential for life,

(iii) Complex Transport Systems and pipelines for carrying raw materials and products of metabolism from one place to another,

(iv) Advanced LABORATORIES and REFINERIES for breaking down the external raw materials into their usable parts.

(v) Specialised cell membrane proteins for the control of incoming and outgoing materials and

(vi) A DATA BANK with all the necessary information required for the production of all the biological products to be produced.

CELL is the MOST COMPLEX SYSTEM mankind has ever confronted.

Even the most elementary type of bacterial cell with just 1/1000 mm. across in size constitutes a "MECHANISM" unimaginably more complex than any machine thought up, let alone constructed by man so far and it is conducting several thousand chemical reactions simultaneously within its tiny little space.

The Human body consists of about 100 trillion cells of various kinds with each kind of cells doing their own assigned functions.

CHAPTER 4

DNA

In Every CELL there is a DNA molecule located in the CELL's nucleus.

DNA - Deoxiribonucleic acid molecule is a giant of a molecule weighing about 6 million times of a Hydrogen atom, almost 6 feet long and so very thin that it cannot be seen even after magnification to 300, 000 times by electron microscope.

It contains the complete data for all activities taking place during the entire life time of the organism including the Humans from Birth to Death.

It contains in a very precise Chemical terms informations regarding all the characteristics of a person from the physical appearance to the structure of the inner organs down to the slightest detail like the height, colour of eye, hair, skin etc., the design of 205 bones, 639 muscles, a network of 10,000 auditory muscles, a network of 2 million optic neurons, 100 billion other neurons, 130 billion meter long veins, and 100 trillion cells

etc. They are encoded in The DATA BANK of the components of DNA called GENE.

There are 30 to 40 thousand GENES in Human body coded by a one dimensional linear sequencing of four special bases, (chemical groups).

ADENINE (A) Pairing with THYMINE (T), GUANINE (G) Pairing with CYTOSINE (C) - A, T, G, C.

This DNA is also the transmitting agent of "HEREDITY" of any living organism transmitting information from generation to generation starting from the time it appeared on earth till the time it extincts.

Almost every complex organism begins from a fertilised egg. The egg divides and goes on dividing, eventually generating a very complicated structure composed of many different types of CELLS each doing something special according to the PROGRAMME of the whole EMBRYOLOGICAL DEVELOPMENT contained in its DNA.

All these actions are taking place by INFORMATION RETRIEVAL SYSTEM from a MASTERPLAN installed in the DNA with the linear sequencing of the four bases A,T,G,C.

Thus the complete programme of all living things on earth with every one's own peculiar specialities are completely programmed to the minutest detail and encoded in the DNA of each CELL from the time of its creation till its extinction from earth and is continuously passed on from generation to generation.

The production of 200,000 types of proteins and many other products and the complete building up of the complex organisms with a definite time schedule are all ordered by these programmes.

No sane thinking person can ever imagine even for a blink of a moment that all these can come from chaos by RANDOM COINCIDENCE.

All these can NEVER come of its own except with the conscious DESIGN and CREATION by a SUPREME CREATOR WHO IS ALL KNOWING, ALL ENCOMPASSING AND ALL POWERFUL.

The absurdity of the theory that life could have come into existence by CHANCE is vividly illustrated in the following analogy:-

The entire mankind of the modern world is being blinked out of comprehension by the programming of the computers using ELECTRICAL CODING with binary digital codes, with just 2 symbols of present or absent of Electrical Signal in the computer chips. The present greatest confounding brought about by computers are created by programmes using this simple binary code.

The SUPREME CREATOR uses CHEMICAL CODING with 4 bases A,T,G,C to create the master programmes of all living things on this earth and most probably in the entire universe also with Billions and Billions of specialities existing in the living organisms and installed them in the DNA.

RNA

A group of 3 bases like (AAT, TCC, Etc) are called CODONS representing one AMINO ACID. ENZYMES stand at particular points of the DNA spiral, indicating from where to where the required formula for the needed protein is encoded in the DNA spiral. The DNA spiral is opened between these points when that particular protein is needed and a copy of the encoded information of the DNA between those points are taken by RNA.

RNA'S CODON language is first translated into amino acid language. Then the specific amino acids are picked up and assembled into protein and released. All this is done within 1 to 2 seconds depending upon the size of protein. It is sheer magic knocking out our senses. Even the full details of the system controlling the time schedule is not yet found out. Our poor brains give up. We are left dazed, dumb and numb, even after surrendering with all humility to the UNFATHOMABLE WISDOM OF THE SUPREME DESIGNER.

Computer machines cannot duplicate themselves. But the DNAs duplicate themselves and pass on programmes from generation to generation as long as the species exist (until the species become extinct).

Considering the volume and the complexity of informations contained in DNAs, a computer is a very very insignificant comparison to the DNA. Nobody will accept any proposition saying that the computers can come to existence by 'CHANCE' accumulation of various materials like iron, copper, carbon etc., and programme themselves by CHANCE in course of time. The proposition

Monotheism...

23

will be called absurd and it will be told that it can never happen till eternity.

When that is the decision about computers what else can be the decision for DNA and LIFE, which are millions upon millions of times more complex.

So let us sum it up with an observation of the famous Biologist of Austria "MICHEAL DENTON".

The proposition that the Genetic programming of Higher organisms consisting of something close to 1 billion bits of information contained in encoded form, countless thousands of intricate Algorithms (numerical computations) CONTROLLING, SPECIFYING and ORDERING the growth and development of BILLIONS and BILLIONS of CELLS into the form of a complex organism have been composed by a purely Random process is simply an AFFRONT TO REASON.

CHAPTER 5

MIND, CONSCIENCE AND BEHAVIOUR

The previous expositions - by themselves extremely enormous - fade into insignificance when we compare them to the functions of Brain, Mind, Conscience and Behaviour etc.

They are all mysteries and the scientists themselves admit that they will remain as mysteries only, because they cannot be solved for ever.

The scientists don't even know their seat, or how they work and have given up hope of finding it. Hence we have to accept the SUPREME CREATOR whose intelligent design is the handywork of all these phenomena.

CHAPTER 6

THEORY of EVOLUTION

Even though the Molecular Biology of living things discussed above proves conclusively that Life could not have appeared on earth by CHANCE and hence should have been created only by an ALL WISE and ALL POWERFUL SUPREME CREATOR, let us finish the investigation with a short examination of the theory of Evolution which is said to have tricked the further upgradation to complex organisms from the “CHANCE” appearance of LIFE on earth.

The Theory of Evolution propounded and obstinately propped up by some scientists against the fact of CREATION by the SUPREME CREATOR has been pulled apart by the findings after findings of the scientists themselves from the fossil records. Now even the most stubborn scientist will shy away from the proposition of EVOLUTION THEORY as they come to know more and more clearly that Evolution theory is untenable in the face of the enormity of the evidences coming out from fossil records against it.

“DARWIN” the author of the theory of Evolution himself has raised genuine doubts against his own theory, in his book, “THE ORIGIN OF SPECIES” and said that the answers that may be found in course of time from findings of fossils may clear the doubts.

The answers are now found and instead of clearing the doubts, they have confirmed the doubts as true and the theory of Evolution as wrong.

DARWIN’S DOUBT NO.1:

If species have descended from other species by fine gradations should we not see every where, innumerable transitional forms?

ANSWER: NONE is found because no intermediary Transitional form has ever existed.

DARWIN’S DOUBT NO.2:

Why is not all nature in confusion instead of the species being as we see them, well defined?

ANSWER: Because of the marvellous order, plan and design seen both in the UNIVERSE and in LIVING ORGANISMS have not come from unconscious, Random coincidences but from the ingenious design of a SUPREME CREATOR, ALL WISE AND ALL POWERFUL.

DARWIN’S DOUBT NO.3

As by this theory, innumerable transitional forms must have existed, why do we not find them embedded in countless numbers in the crest of the earth?

ANSWER: Starting from fossils of living creatures like snails, Trilobites, Sponges, earth worms, jellyfish, sea hedge hogs and other complete invertebrates found in CAMBRIAN ROCKS aged about 500 to 550 million years, all fossils unearthed so far show that LIFE appeared on earth all of a sudden and fully formed without having any link or any transitional form between them and other species which existed before them and hence no intermediate transitional forms are seen embedded in the crust of the earth.

With all the above investigations and scientific evidences, we have no other choice except to come to the conclusion that it is not at all possible for LIFE to have come to existence by "CHANCE" incidence and it could have been only CREATED by a SUPREME DESIGNER, the CREATOR.

PART - II

**MIRACLES OF AL QUR'AN PROVING
THE EXISTANCE OF THE CREATOR ALLAH(s.w.t.)**

FOREWORD

All Religions, small or big are based on some HONEST AND SACRED BELIEFS.

Most of the beliefs are established by a chain of human philosophies conceived altogether by inspired pious thinkers spread over long long periods of Time.

The concept of GOD the CREATOR and RELIGION had remained as pure PHILOSOPHY without any acceptable proof for them, to convince human mind.

Among the innumerable religious beliefs the world has seen, some of the beliefs are proclaimed by persons claiming to be the CREATOR'S MESSENGERS. The CREATOR has revealed scriptures to these Messengers which they preached to their people. To all of His genuine messengers, the CREATOR has given power to perform some Miracles appropriate to the Era of the messengers in order to help them prove the truthfulness of their message.

Those miracles which were performed by GOD'S messengers were physically seen and believed by the people of their time. Those miracles cannot be re-enacted now. And they have no historical proofs apart from legendary narrations. Hence they have to be only believed blindly.

JUDAISM, CHRISTIANITY, AND ISLAM are the main religions propogated by such God's messengers. God has given TORAH (Taurath) to Musa (a.s.) (MOSES) as scripture for children of Israel (Isralites) who have

branched out to the present day Jews, PSALMS (Sabur) to Davud (a.s.) (DAVID) and BIBLE (Injeel) to ISA (a.s.) (JESUS) as scripture for christians. During the passage of time, the very same people to whom the scriptures were given have started altering their own scriptures to incorporate their own vile desires and ideas into their scriptures.

As a result of this wanton, nefarious destructive actions, those scriptures have lost their original message and credibility and have become fradulant deceptions.

Finally the CREATOR has revealed HIS LAST and FINAL scripture AL QUR'AN to HIS LAST and FINAL messenger MUHAMMAD (s.a.s) confirming all the original messages of all of His previous scriptures and also made it as the total perfect GUIDANCE to entire MANKIND AND SUFFICIENT FOR ALL TIME to come.

The CREATOR HIMSELF has taken the responsibility of protecting HIS final scripture for ever, from any alteration by human hand like what has happened to all of HIS previous scriptures and the complete system by which the CREATOR is protecting AL QUR'AN is a miracle given in chapter 18. AL QUR'AN is so well preserved in both writing and memory that it remains in its pristine purity and in its original revealed form and in its original revealed language of Arabic without even a single syllable altered, added or deleted from it from the time of its revelation till today and will remain so like that for ever.

This is the first miracle of AL QUR'AN and it is UNIQUE to it only and for none others.

The CREATOR has made AL QUR'AN the miracle of miracles and a permanent miracle in some other ways also, enumerated below:

- i. It contains many miraculous prophetic statements which have come true as predicted in course of time.
- ii. It contains many miraculous scientific statements totally unknown in its ERA (Period of its revelation) which are now being proved one by one by newer and newer scientific discoveries.
- iii. There are NO CONTRADICTIONS in it.
- iv. There are NO FALSEHOODS in it.
- v. There are NO IRRATIONAL STATEMENTS in it.
- vi. None of its dictums are impractical.
- vii. For the last one thousand four hundred and odd years, nobody is able to produce even a single chapter like in AL QUR'AN as challenged by the CREATOR Himself in AL QUR'AN.

These are the miracles of AL QUR'AN and the wonder is that they are all permanent and can be tested and verified by anybody at anytime.

With this foreword note we are now taking you to the wonderful experience of seeing the miracles of AL QUR'AN one by one and making you to come to the following inevitable conclusion that the CREATOR is existing and is calling HIMSELF as ALLAH in Arabic and has made HIS final scripture AL QUR'AN itself as the foremost proof of HIS existence.

INTRODUCTION

This part of the book is exclusively based on miracles and so let us first define what is a 'MIRACLE'.

Anything that can be achieved are done by human effort or by nature is not a miracle. Only those things that cannot be done or achieved by human effort or by nature are miracles.

Everything in this world can be divided into 3 categories:-

1) Things that have come under the domain of knowledge, however much wonderful they may be, are not miracles.

2) Things that are stunning the Reason and Human Wisdom....

those which are not yet investigated or those about which investigations are not yet complete, but about them we can reasonably assume that they are bound to come within the grasp of knowledge at the end of investigation. These are also not miracles.

3) The only things....

- a. that are inexplicable by Knowledge or Reason
- b. which are definitely beyond the scope of Comprehension and
- c. which cannot be done by humans or nature for ever.

....and these only are MIRACLES.

Only such miracles described in AL QUR'AN which are already discovered so far, are taken in this part of the

book for proving the existence of ALLAH (s.w.t.) the CREATOR.

The following miraculous prophetic and scientific informations were given in 'AL QUR'AN' 1430 years ago. At that point of time they were known to ALLAH (s.w.t.) only and not to any human beings.

They have been proved by subsequent happenings, new findings and discoveries.

The latest discovery which proved one such miraculous scientific information given in AL QUR'AN was made as recently as 1999. There are bound to be many more such miraculous informations in AL QUR'AN that are awaiting for the science and knowledge to discover.

We can find innumerable miracles in legends and fictitious stories fabricated by human brains. None of them can face the scientific requirement of showing proofs. Their validity cannot be established now by actual proofs.

The only VERIFIABLE MIRACLES that are existing in the world today are only in AL QUR'AN. They are classified under the following four headings:

- A. THE FULFILLED PROPHECIES.
- B. UNKNOWN INFORMATIONS FOUND IN AL QUR'AN COMING TO LIGHT LATER.
- C. RECENT SCIENTIFIC DISCOVERIES CONFIRMING WHAT AL QURAN HAS ALREADY TOLD 1430 YEARS AGO.
- D. THE CHALLENGES MADE BY AL QUR'AN WHICH REMAIN UNBEATEN TILL TODAY.

With all these proofs we are establishing that AL QUR'AN is ABSOLUTE truth from the CREATOR and nothing but truth.

This incidentally makes AL QUR'AN as a proof also for the miracles performed by NUHU (a.s.) IBRAHIM (a.s.) MUSA (a.s.), UZZAIR (a.s.), ISA (a.s.), which ever are mentioned in AL QUR'AN.

AL QUR'AN mentions some of the miracles performed by the previous prophets of Allah (s.w.t.) like Nuhu, (a.s.) Ibrahim(a.s.), Musa(a.s.), Uzzair(a.s.), Isa(a.s.) etc., By their mention in ALQUR'AN, these miracles get proved as true because there are no falsehoods in AL QUR'AN.

A FULFILLED PROPHECIES

CHAPTER 7

**ROMANS' VICTORY AFTER THEIR DEFEAT,
AND THE REJOICING OF MUSLIMS AT THE SAME
PERIOD BECAUSE OF ALLAH(s.w.t.)'S HELP**

- Verse 30:2. The Romans have been defeated.
- Verse 30:3. In the lowest land and they after their defeat will be victorious.
- Verse 30:4. Within three to Nine years. The decision of the matter before and after is only with ALLAH. And on that day the believers will rejoice.
- Verse 30:5. With the help of ALLAH. He helps whom HE wills and HE is the almighty, the most merciful.
- Verse 30:6. A promise of ALLAH and ALLAH fails not in HIS promises. But most of men know not.

In these verses two very significant prophecies and one scientifically miraculous statement is made.

PROPHECY NO. 1

The defeated Romans will win again within 3 to 9 years.

The Romans were routed by Persians in the year 614/615 A.C. and lost most of their Asian and African territories like Syria, Palestine, Jerusalem, Egypt and North African territories to the Persians. And the Romans' capital CONSTANTINOBLE also was targetted by other enemies. It was almost concluded that Romans were finished for ever.

The Pagan Arabs were rejoicing at the victory of Persians, who were also Pagans like themselves worshipping fire and other objects, on the Monotheistic Romans, who were like muslims of Mecca. Exactly at this critical time, ALLAH (s.w.t.) pronounces the above verses.

In the year 622 A.C. Heraclius, with a brilliant manoeuvre took his army by AEGEAN sea and attacked the Persians at the rear and routed them at the place called "ISSUS"

In this year 622 AC only Phophet Muhammad (s.a.s.) left Mecca and came to MADEENA (This event is known as Hijrath and the Muslim calendar starts from this year only).

In the year 624, Heraclius again took his army by Black sea and again attacked the unprepared Persians from behind and achieved a Decisive victory at the place called 'KARS'.

Thus the prophecy of Romans' success came true.

PROPHECY No : 2

At the same time Muslims also will rejoice with the help of ALLAH.(s.w.t.)

In the year 624 AC, at the place called “BADR” about 150 k.m. from Madeena, 313 less equipped muslims defeated 1000 fully equipped and trained Meccan Quraish with the help of ALLAH (s.w.t.) as foretold in verse no 30:5 in a miraculous manner. The help that ALLAH (s.w.t.) has given to the believers for achieving this victory is described in verses 3:123 to 125 and 8:12 of AL QUR’AN.

AS prophecied in verse 30:4 both the victory of the Romans on Persians and victory of Muslims over pagan Arabs, occurred at the same period of time.

SCIENTIFICALLY MIRACULOUS STATEMENT ABOUT LOWEST LAND.

In Verse 30:3, AL QUR’AN says that the Romans were defeated at the Lowest Land.

The battle in which the Romans were defeated had taken place near Jerusalem and Dead Sea.

That is the lowest land on earth as per the present day world topography established in 20th Century.

Allah (s.w.t) only knew that information before 1430 years ago.

CHAPTER 8

PRESERVED SHIP OF PROPHET NUHU (a.s.)

Verse 29 :15 Then WE saved him and those with him in the ship and made the ship as a SIGN for all the people.

Verse 54:15. And indeed WE have left this (the ship) as a SIGN. Then is there any that will receive the lesson?

PROPHECY NO.3

In the above verses ALLAH (s.w.t.) tells that HE has preserved the ship of HIS prophet NUHU (a.s.) as a SIGN for the posterity.

Prophet NUHU (a.s.) is described by prophet MUHAMMAD (s.a.s.) as the first RASUL of ALLAH (s.w.t.) He lived for 950 years and preached ISLAM (Submission to the one true God) to his people. Only very few people heeded to his preachings. Then ALLAH (s.w.t.) commanded him to build a ship and wait for a great flood that will be coming soon as decreed by HIM. Accordingly NUHU (a.s.) built a ship in his place which has no

connection with sea at all. In his place even drinking water was scarce. His people were mocking and laughing at him for this act of madness (according to them).

With ALLAH (s.w.t.)'S command, a great flood came and it drowned all unbelievers and the ship floated and sailed under ALLAH (s.w.t.)'s care with prophet NUHU (a.s.) and the believers and pairs of some other creatures loaded into the ship as per ALLAH(s.w.t.)'s command. When the flood receded after many days of sailing, the ship landed on top of the Hill called 'JUDY' in Armenian range of hills.

During the first World War, a Russian pilot "VILADIMIR" sighted a ship on top of a mountain peak 16,000 feet high called 'JUDY' in Armenian Mountain range. From Moscow, a research team went forth and reached the ship after breaking the permanent ice cover, examined the ship and found it to have many small and big enclosures. The results of the investigation did not gain publicity, because of the Russian revolution.

Later, a team from Turkey with an European expert went to investigate the ship and found that the ship was made of Casuarina variety of tree called "KOBBER". The life of this type of wood is generally 1000 years, but because of permanent Ice cover, the wood of the ship has survived for the 5000 years as determined by Radium carbon - 14 test.

The period during which the prophet NUHU (a.s.) lived is also calculated as about 5000 years back.

As foretold by ALLAH (s.w.t.) the ship is saved and is remaining as a SIGN for the people to see.

CHAPTER 9

PRESERVED BODY OF PHIROUN

Verse 10: 92: This day shall we save thee in thy body that thou may be SIGN to those who come after you. And verily many among mankind are HEEDLESS of our signs.

PROPHECY NO. 4

“PHIROUN” was the emperor of Egypt during the lifetime of MUSA (a.s.) (MOSES). He chased Musa (a.s.), when he was taking the Israelites along with him to escape from Phiroun and crossed the sea after splitting the sea with his stick as per ALLAH (s.w.t.)’s command and left the passage unclosed as directed by ALLAH (s.w.t.). When Phiroun and his army tried to cross the sea through the same passage, they were drowned. PHIROUN, at the last moment of his life declared faith in Musa (a.s.)’s GOD. ALLAH (s.w.t.) chided him and made the promise as in the verse 10:92 cited above.

This was the permanent questioning matter for others, who wanted to discredit AL QUR'AN until 19th century. They were taunting muslims and challenging them to show the body of Phiroun, as BIBLE in its version of the same incident had not said anything about the saving of Phiroun's body, whereas AL QUR'AN says so.

In the year 1898, Phiroun's body was found and brought to 'CAIRO' and is being Exhibited in the Museum of King's mummified bodies. In 1975, the body was examined for the cause of death by Biopsy and found that the death has occurred due to drowning or enormous shock before drowning. Thus ALLAH (s.w.t.)'s prophecy is fulfilled.

CHAPTER 10

HELL FOR ABULAHAB AND THE FATE OF HIS WIFE

Verse 111:1. Perish the two hands of Abu lahab
and perish he.

Verse 111:2. His wealth and his children will not
benefit him.

Verse 111:3. He will be burnt in a fire of blazing
flames.

Verse 111:4. And his wife too, who carries wood.

Verse 111:5. In her neck is a twisted rope of
palms fibre.

PROPHECY NO. 5

This small chapter was revealed about 8 years before
Abulahab's death and clearly stated that Abulahab will go
to hell fire only.

It implied that he will never become a 'believer'.

Abulahab is an uncle of prophet MUHAMMAD (s.a.s.)
and is a cruel enemy of Islam. He hated Islam so much

that he would do anything to discredit it. For 8 years of his lifetime he had this golden opportunity to disprove AL QUR'AN and Islam by accepting Islam. But he could not do that as ALLAH (s.w.t.) has not willed that way. Hence he continued and died as a disbeliever to be cast in the hell fire only.

Thus the prophecy made by AL QUR'AN about Abulahab has been fulfilled.

Similarly, Abulahab's wife "Umm Jameel" was also reported to have died by strangulation of her neck by the palm fibre rope, when her firewood bundle slipped from her head and the rope by which she had tied the fire wood bundle has coiled around her neck and strangulated her.

Thus verse. 111:5 had also come true.

Chapter 11

BRINGING BACK MUHAMMAD (s.a.s.) TO MAKKAH

Verse 28:85. Verily HE who ordained the QUR'AN for thee will bring thee back (Restore) to the place of return (MAKKAH)

PROPHECY NO. 6

This verse was revealed at a place called "JUHF" during Hijrah journey of Rasulullah (s.a.s.) from Makkah to Madeena. Juhfa was a short distance away on the main route to Madeena. Abubakker Siddique (r.a.) who was accompanying Rasulullah (s.a.s.) in the Hijrah journey told Rasulullah (s.a.s.) that from Juhfa they have to take a deviated route to Madeena so as to escape from searching MAKKAN QURAISH. While travelling in the main route, MAKKAH was atleast visible when looked back. Now even that solace would be lost in the deviated route. Rasulullah (s.a.s.) was saddened. Then to console him this verse was revealed by ALLAH (s.w.t.).

This promise by ALLAH (s.w.t.) was fulfilled after 8 years when Rasulallah (s.a.s.) came back to MAKKAH as a victor. When nobody can know whether he will live the next moment, who else except ALLAH (s.w.t.) can make this promise to MUHAMMAD (s.a.s.) that he will live and return to MAKKAH. This promise has been gloriously fulfilled.

CHAPTER 12

UMRA BY MOHAMAD (s.a.s) WITH HIS COMPANIONS

Verse 48:27. Indeed ALLAH shall fulfill the true vision which He showed to HIS messenger in absolute truth. Certainly you shall enter AL MASJID AL HARAM if ALLAH wills, secure with out fear, having your heads shaved or hairs shortened.

PROPHECY NO. 7

In the year A.H.6 Rasulullah (s.a.s.) saw a dream in which he was entering the sacred Mosque in MAKKAH. So he decided to perform 'Umra' the shorter pilgrimage and went to MAKKAH with 1200 of his companions and 'Qurbani' animals. But at the borders of MAKKAH, the Quraish stopped them from performing Umra and asked the Prophet (s.a.s.) to return back that time and perform the Umra after one year and also made him to enter into the famous "HUDAIBIAH" treaty with very many one sided

conditions favourable to them. With that, they were also making SLY remarks that the Prophet (s.a.s.) was disappointed by the dreams.

The whole chapter 48 named “FATHAH” (Victory) containing the above verse was revealed to the Prophet (s.a.s) on his way back from Hudaibiah to Madeena.

ALLAH (s.w.t.) says with certainty that Prophet (s.a.s.) with his companions will perform Umra and accordingly Rasulullah (s.a.s.) performed Umra with his companions on the following year and the prophecy got fulfilled.

CHAPTER 13**ALLAH (s.w.t.)'s PROMISE TO PROTECT PROPHET FROM MANKIND.**

Verse 5:67. O Messenger! proclaim which has been sent down to you from your LORD. If you do not then you have not conveyed HIS message. ALLAH will protect you from mankind. Verily, ALLAH guides not the people who disbelieve.

PROPHECY NO. 8.

Rasulullah (s.a.s.) was having cunning and powerful enemies in Jews, Hypocrites (Munafiqs) and disbelievers, idolators etc., vested interests. With unshakable faith that ALLAH (s.w.t.) will protect him, Rasulullah (s.a.s.) was living without any security arrangements in very simple dwellings, moving around alone in day and night and participating in deadly battles with full knowledge that he was the prime target of all the battles. Nobody was able to kill him directly or cunningly, in his entire life time.

Who can quash ALLAH (s.w.t.)'s protection.

CHAPTER 14

MUHAMMAD (s.a.s) IS THE LAST PROPHET

Verse 33:40. But MUHAMMAD (s.a.s.) is the messenger of ALLAH and the last of the prophets.

PROPHECY : 9

The message made in this verse is that MUHAMMAD (s.a.s.) is the last prophet and he is the seal in the series of the prophets.

Accordingly no other prophet has come so far after MUHAMMAD (s.a.s.).

'ALLAH' (s.w.t.) has made this declaration because of the following reasons.

1. He has perfected and completed his religion of 'ISLAM' which was preached by all of the ALLAH (s.w.t.)'s Prophets including from 'NUHU (a.s.) (NOAH) followed by IBRAHIM (a.s.) (ABRAHAM) MUSA (a.s.) (MOSES), ISA (a.s.) (JESUS) ending with MUHAMMAD (s.a.s.).
2. He has also revealed THE FINAL SCRIPTURE AL QUR'AN, which will be sufficient for all humanity for all time to come, to guide them to 'TRUTH' and to the 'STRAIGHT PATH'.

3. He is also protecting AL QUR'AN from any change or distortion similar to whatever has happened to all of his previous scriptures.

Hence there is no need to send any more scripture after AL QUR'AN and so no more Prophet is needed to receive and preach it to people.

Hence HE has declared MUHAMMAD (s.a.s.) is the last of the prophets.

CHAPTER 15

THE MAKKAN LEADERS NOT LIVING IN MAKKAH FOR LONG AFTER DRIVING MUHAMMED (s.a.s.) AWAY FROM MAKKAH

Verse 17:76. And verily they were about to frighten you so much as to drive you out from the land. But in that case they would not have stayed (therein) after you, except for a little while.

PROHECY No. 10

This prophecy has wonderfully come true. All the important Makkan Quraish leaders like ABU JEHAL, OTHBA, SHAIBA etc., who were responsible for driving away Rasulullah (s.a.s.) from Makkah were killed in the battle of 'BADR' just two years after HIJRATH of Rasulullah (s.a.s.).

CHAPTER 16**THE DEFEAT OF MAKKAN QURAISH**

Verse 54:44. Or say they (Quraish'disbelievers')
we are the great multitude,
victorious?

Verse 54:45. There multitude will be put to flight
and they will show their backs.

PROPHECY NO.11

Makkan Quraish disbelievers were boasting that they
are very powerful and so they will conquer any body.

As per ALLAH (s.w.t.)'s prophecy they were all
defeated and routed at 'Badr' and were made to loose in
every encounter they faced till the final victory by
muslims.

CHAPTER 17

SPACE TRAVEL

Verse 55:33. Oh Assembly of Jinns and men. If you can pass beyond the zones of Heavens and Earth then pass. But you will never be able to pass without power (energy).

PROPHECY No. 12

This verse indicates that the humans can pass beyond the earth's gravitational zone and that it can be achieved with appropriate energy only.

This prediction has come true now by the space travels employing enormous energy.

CHAPTER 18

PROTECTION OF ALQUR'AN BY ALLAH (s.w.t.)

Verse 15:9 Verily! it is WE who have sent down the DHIKR (ALQUR'AN) and surely WE will guard it (from corruption).

PROPHECY No. 13

It is a miracle of miracles that AL QUR'AN is completely protected as per ALLAH (s.w.t.)'s promise from any corruption by human hands all these 1430 years, and is existing in the original language of its revelation and in its pristine purity. Not even a single letter is altered, added, or deleted from it all these years.

1. AL QUR'AN had been revealed to prophet Muhammad (s.a.s.) as oral revelations from time to time during the last 23 years of his life time.
2. As soon as revelations were made, they were memorised by many believers, who are called HAFIZ and kept in their memory, and also they were recorded in writing and safeguarded.

3. From that time till today millions of "HAFIZ" are memorising AL QUR'AN fully. Once in every year during the month of "RAMADHAN" a special prayer called "TARAWEEH" is conducted all the 30 nights of the month in all MOSQUES in the world.

In this prayer, the whole of AL QUR'AN is recited, 1/30th portion of AL QUR'AN every night by the "HAFIZ" conducting the prayer as "IMAM" and other "HAFIZ" persons who are praying behind him will be verifying the correctness of what the "IMAM" is reciting and correcting him if he commits any mistake. Hence no change in AL QUR'AN is possible with out detection.

4. Apart from this, tens of millions of Muslims all over the world are repeating portions of AL QUR'AN in their 5 times prayer everyday.
5. It is also a well known fact that all other scriptures revealed by ALLAH (s.w.t.) to various prophets' people were altered and corrupted in various ways by the same people to whom they were revealed and none of those scriptures are existing today in its purity and in its original language of revelation.
6. As AL QUR'AN was revealed as the FINAL SCRIPTURE OF GUIDANCE to all people for all time to come, ALLAH (s.w.t.) has made this arrangement to protect it forever and in this way it will be certainly protected till the end of the world.
7. When we apply our "thinking" futher on this subject the following conclusion becomes evident.

ALLAH (s.w.t.) uses angels to get all HIS ERRANDS done. He selects prophets from Humans to do HIS ERRAND of receiving HIS scriptures and propagating them to the people.

With prophet MUHAMMAD (s.a.s.) as the last of the prophets, ALLAH (s.w.t.)'s selection of humans for doing HIS errands of prophethood had closed.

PROPHETHOOD cannot be acquired by anybody by themselves, but only it is conferred by ALLAH (s.w.t.) on those whom HE has selected. Similarly to do HIS Errand of protecting AL QUR'AN by preserving in memory HE selects HAFIZES. Only those selected by HIM can become HAFIZ. This can be seen from the fact that there are innumerable people who have tried and failed to become HAFIZ.

So, HAFIZES are all ALLAH (s.w.t.)'s selected people and deserve to be revered. (Treated with Honour).

AL HAMDHU LILLAH.

B **UNKNOWN INFORMATIONS**
FOUND IN ALQUR'AN
COMING TO LIGHT LATER

CHAPTER 19

CAVE DOCUMENTS

Verse 18:9. Do you think that the companions of the cave and documents were a wonder among our SIGNS?

PREDICTION NO. 14

Here is a mention in the above verse about some documents in the cave, where some persecuted believing youths took refuge from their disbelieving folks.

To answer the question posed by the unbelieving Makkans to Rasulullah (s.a.s.) about the cave - people ALLAH (s.w.t.) revealed verse 18:9 to verse 18:26 and gave the story of the youths.

They were believers in oneness of GOD and were persecuted by their people to worship their multifarious GODS. So to escape from persecution by their people they took refuge in a cave and went to sleep after making supplication to GOD to bestow on them HIS mercy and dispose their affairs in the right way.

ALLAH (s.w.t.) made them sleep for 300 solar years equivalent to 300+9 lunar years

When they awoke and made contact with the town, the people came to know of their affairs and decided to construct a building for them as a place of worship.

This is a short narration of the episode, given in AL QUR'AN.

The records of cave mentioned in the above quoted verse has now come to light miraculously. A report telecast by the B.B.C. under the caption of "DEAD SEA SCROLLS" first in 1993 and many times in 1998 gives the following episode:-

In 1947 an Arab shepherd boy was searching for his lost lamb, in the Jordanian 'Gumran' Mountain ranges adjoining the Dead Sea. He found a bunch of leather scrolls kept in mud pots in a cave. He brought some of them and gave it to his father who is a cobbler. The next day the father and son went to the cave together and collected more of the leather parchments and brought them to their residence. When the cobbler wanted to use the leather for making footwear, he found some Hebrew writings on them and could not make out what is written. He then took them to an old Book Shop owner in east Jerusalem. The book seller sensed that they should be some ancient messages and so he bought all the leather scrolls from the cobbler for few Dinars.

Being a christian he handed over all the leather scrolls to the church. The christian Bishop of the church found them as very important records and constituted many teams and searched all the caves in 'Gumran' mountain range and collected all the records to be found and the total number of such leathers are told to be around 15,000.

The news about the finding of some important old documents spread out and Jew, Christian and Muslim Scholars showed interest in reading the documents.

And in 1952, Jordan King Hussain wanted the Bishops to hand over the old documents to a common team of Jews, Christians and Muslims to research the informations in the records.

But the Bishops refused to comply, claiming that the documents are their private property.

No body including eminent christian scholars were allowed to read them.

Thus the message in the manuscripts was completely concealed from the people and kept very secret for the last 40 to 45 years by the christian HEIRARCHY of Jerusalem and Vatikan. Then for safe preservation of the message in the documents, they microfilmed them and deposited the microfilms in a library in Los Angles for safe custody.

In 1990 Mr. EISEMEN, an eminent christain Scholar became the Director of this library. He was one of the Scholars who was refused permission to peruse the records earlier.

Now, finding them in the micro films under his custody he got them developed and read them. He was stunned by the information and took the help of a Hebrew language scholar professor MICHAEL WISE of Chicago University and both of them selected about 100 important pages of manuscripts and translated them to English and are publishing it as DEAD SEA SCROLLS UNCOVERED.

The news of publication stunned the Christian Hierarchy and they started threatening the two scholars with legal action.

But the two scholars are prepared to face any legal action instead of hiding an enormous truth from the humanity.

In the B.B.C. telecast, when Mr. EISEMEN was debating with a Jew, the show was stopped when Mr. EISEMEN answered that "IT CONFORMS QUR'AN". Similarly when Professor Michael Wise said in the interview that "IT CONFORMS ISLAM", the show was stopped and changed.

From this, anybody can draw the following conclusions very easily.

1. The records which the persecuted Christian youths had with them in the cave where they took refuge from the religious persecution of Non Christians should have been something connected with their very sacred book of Bible only. As christian youths in that circumstance of running for saving their lives would not have cared to carry any other less important records.

2. ALLAH (s.w.t.) would not have mentioned in AL QUR'AN about any insignificant scrolls lesser than HIS Scriptural matters

3. Hence the scrolls should be containing information connected with the original Bible as given by HIM to (ISA) (a.s.)(JESUS)

4. It is a well known fact that the New Testament was written by others about ISA (a.s.) (JESUS) centuries after

Monothemism...

61

ISA (a.s.) (JESUS), with evangelical spirit only and also we know that what ISA (a.s.) (JESUS) was preaching is not available with the Christianity today.

5. The fact that the Church Heirarchy has taken so much of pain to hide the cave documents from the public shows that the records should be containing totally different Christian Theology than what they are having with them at present.

Let us hope that the hided information spread and the correct guidance given by ALLAH (s.w.t.) is incorporated and implemented in the christian faith.

CHAPTER 20

DHUL QARNAIN'S WALL

Verse 18:93. When he (Dhul Qarnain) reached between two mountains he found a people who scarcely understood a word.

Verse 18:94. (By signal) They Said "OH Dhul Qarnain, verily "YA'JUJ and MA'JUJ (Gog and magog) are doing great mischief in the land. Shall we then pay you a tribute in order that you might erect a barrier between us and them.

Verse 18:95. That in which my Lord had established me is better. So help me with strength (of labour). I will erect a strong barrier between you and them.

Verse 18:96. Bring me blocks of Iron. When he filled up the gap between the two

Monotheism...

63

mountains he said "Blow". Then
when he had made them (Red) fire
He said "Bring me molten (Lead/
Copper) to pour over them.

Verse 18:97. So they cannot scale it or dig
through it.

PREDICTION No : 15.

The wall built by 'Dhul Qarnain' was not known to
historians so far. But now it is found in "DURBEND" in
SOVIET UNION.

CHAPTER 21**CITES CALLED 'AD' 'IRAM' AND 'THAMUTHU'**

Verse 89:6. Seest thou not how the Lord dealt with AD (People)?

Verse 89:7. Of the (City of) IRAM with LOFTY PILLARS.

Verse 89:8. The like of which were not produced in (ALL) the land.

Verse 89:9. And with THAMUD (People) who hewed out rocks in the valley (to make dwellings)?

PREDICTION No. 16.

The cities of IRAM, AD and THAMUTHU were not known to the Historians and Ancient history till 1975. In 1975 in Northern Syria, they have excavated a city called "EBLA". This city is dated to be 4300 years old.

The researchers found in the library of "EBLA" - a record of all the cities with which "EBLA" has done

Monotheism...

65

business, and the name of the cities of 'IRAM, AD and THAMUTHU' were in that record.

The names of these cities which were lost to human history till 1975 were given so succinctly in AL QUR'AN in the above verses proving the source of AL QUR'AN cannot be anything other than divine revelation.

C **RECENT SCIENTIFIC DISCOVERIES
CONFORMING WHAT ARE ALREADY
TOLD IN AL QUR'AN 1430 YEARS AGO**

CHAPTER - 22

EMBRYOLOGY

AL QUR'AN contains so many verses that describe in great detail about human reproduction and development. Facts, that were not known to scientists even 40 years back were given in AL QUR'AN.

The stages of development of Human Embryo as known to scientists to day is proposed by O'Rahily in 1972. But Professor Keith Moore, a noted Embryologist, after carefully examining the English translations of the Quranic verses about Embryology, found the descriptions and the terminology used by AL QUR'AN for the various stages of the development of Embryo was so accurate and more appropriate that he modified the text book written by him on embryology, incorporating all the relevant Quranic Passages and changed the title of his book as THE DEVELOPING HUMAN - CLINICALLY ORIENTED EMBRYOLOGY WITH ISLAMIC ADDITIONS.

It was published by W.B. SAUNDERS in 1987 and is a standard university text book in U.S.A. and CANADA.

This book is also a receipt of an award, as the best medical book written by a single author.

WE ARE GIVING BELOW THE QURANIC VERSES AND THE RELEVANT SCIENTIFIC FINDINGS.

Verse 86:6 He is created from a water gushing forth.

Verse 86:7. Proceeding from between the back bone and the Ribs.

CONFIRMATION BY SCIENCE.

The seminal fluid produced by the Testicles, rises to a position between back bone and ribs situated near the kidney and from there it is pushed powerfully and splashed.

Verse 36:77. Does not man see that we have created him from "NUTFAH"

CONFIRMATION BY SCIENCE

For pregnancy only one male sperm is required out of an average of 30 lakhs sperms splashed by the male and it is 'NUTFAH'

C.Verse 76:2 Verily we created man from a drop of mingled sperm.

CONFIRMATION BY SCIENCE

Pregnancy is established when the male Sperm and female Ovum unite and it is said in this verse as a mingled sperm.

D.Verse53:45 And that HE creates the pairs, male and female.

Verse 53:46. From NUTFAH when it emitted.

Verse 32:8. And made his progeny from quintessence of the despised fluid.

CONFIRMATION BY SCIENCE

From the above verses the following conclusions are drawn:

1. The male or female sex of the Embryo is decided by the sperm that is emitted. Only male sperm is emitted and hence the male sperm only decides the sex of the offspring.
2. The progeny or heredity of the offspring is made from the quintessence derivative of the despised fluid.

This indicates that the heredity factor is installed only upon fertilisation of the egg.

Some male sperms have 'X' Haploid gametes and other male sperms have 'Y' gametes. But female Ovum has got 'X' gametes only.

When male sperms with 'X' haploid gamete unite with Ovum the 23rd chromosome will be 'XX' and Foetus will be female. If male sperm with 'Y' haploid gamete unite with ovum the 23rd pair of chromosome will be 'XY' and the offspring will be male. Hence only the male sperm decides the sex of the child. The union of sperm and ovum leads to the fusion of their Nuclei, restoring the constant haploid chromosome Number in 'Zygote' by uniting one haploid gamete from sperm and another from ovum.

The constant Chromosome Number transmitted from one generation to another of the species, for Humans is 23, is installed in the Zygote only upon fertilisation.

It is extremely remarkable, that what is said in AL-QUR'AN is exactly found to be the scientific knowledge discovered very recently.

E. verse 23:13. Then we placed him as (a drop of) sperm in a place of rest firmly fixed.

CONFIRMATION BY SCIENCE

Embryology says the same thing as mentioned in the above verse, that the fertilized egg comes down from the fallopian tube to the uterus and attaches itself firmly to the placenta of mother's uterus.

F. Verse 23:14 Then WE made the sperm into a leach like clot of congealed blood.

CONFIRMATION BY SCIENCE

Embryology has found that from the 7th day to 24th day the fertilized egg clings to the uterus like a leach, drawing its requirement of blood from it. It also looks like a clot of blood because of clotting of blood in its closed vessels.

G. Verse 23:14 Then WE made it into lump of chewed flesh.

CONFIRMATION BY SCIENCE

Embryology has found that at the end of fourth week, the leach like blood clot develops somites, the early formation of spinal chord. This somites gives the look of teeth marks in a lump of flesh.

H. Verse 23:14 Then WE made out of the lump,
bones and clothed the bones with
flesh.

CONFIRMATION BY SCIENCE

This is exactly the further stage of Embryonic
development.

I. Verse 23:14 Then we developed out of it another
creature.

CONFIRMATION BY SCIENCE

Embryology says that only at the third month Embryo
starts resembling human form with early stages of
development of all internal and external parts of the body.
From this stage only it is called "FOETUS".

J. Verse 39:6. He makes you, in the Wombs of
your mothers in stages one after
another in three veils of darkness.

CONFIRMATION BY SCIENCE

The foetus is covered by the envelopes (1) abdominal
wall 2) Uterine wall and 3) Amino - Chorionic membrane.

K. Verse 22:5. We created you from dust, then
from a sperm, then from leach like
clot, then from a little lump of flesh,
partly formed, partly unformed.

CONFIRMATION BY SCIENCE

Science says at intermediate development stages
of Embryo, it will be composed of both differentiated and
undifferentiated tissues with some parts developed and
some parts not yet developed. Scientists say that Quranic

description of “little lump of Flesh partly formed and partly unformed” is the most apt description of this stage.

L. Verse 76:28. It is we who created them, and
WE strengthened their joints.

CONFIRMATION BY SCIENCE

In embryogenesis it is found that after the cartilage bones are differentiated, the muscles differentiate and then ligaments tying muscles and bone joints differentiate.

M. Verse 22:5. And WE cause whom we will to rest
in the wombs for an appointed term.

CONFIRMATION BY SCIENCE

Modern science has found out that only about 30% of Zygotes that form, develop into foetuses that survive until birth.

N. Verse 23:78 It is HE who has created for you
hearing, eyes and feeling and
understanding

CONFIRMATION BY SCIENCE

Embryogenesis has established that after 24th week hearing develops, after 28th week sight develops and after that brain functions develop.

It is in the same order as given in AL QUR'AN.

Only the one who is creating can describe the development of foetus in such accuracy to the extent of stunning even the present day expert scientists.

CHAPTER 23

CREATION OF UNIVERSE

Creation of universe and development of celestial objects is a very vast and wonderful subject.

AL QUR'AN has made many references to various events of the creation of universe and functioning of various celestial objects.

To compare the accuracy of various information given in AL QUR'AN with modern day scientific findings and theories, it is essential to have a clear concept of what modern science has established so far about the creation of universe.

MODERN SCIENCE SAYS:-

- 1) Space-time has a beginning at the "Big Bang"
- 2) Events do not happen in an arbitrary manner, but they reflect a certain underlying order, which may or may not be divinely inspired.
- 3) The entire universe was zero in size at 'Big Bang' stage. This point entity was infinitely Hot.

- 4) About (15 to 20 Billion) 1500 to 2000 crores of years back this point entity exploded with a "Big Bang".
- 5) It started expanding at a speed of many lakhs (millions) of times of the speed of light.
- 6) After 1 second from Big Bang, the temperature of the expanding universe would have reduced to 1000 Crores °c (10 Billions). (This temperature is likely to be reached at the Hydrogen bomb explosion and the temperature at the centre of SUN is about 1 Crore (10 million)°c only.
- 7) After 100 seconds of further expansion of the universe the temperature would have fallen to 100 Crore (1 billion) °c. (This is the temperature occurring inside the Hottest stars).

Now Diuterium (heavy hydrogen) atoms containing one proton and one neutron and then helium atoms with two protons and two neutrons and then a couple of heavier elements, lithium and beryllium would have formed.

- 8) Within only a few hours the production of Helium and other elements would have stopped.
- 9) And after that for the next about 10 lakh (1 million) years, the universe would have just continued expanding without any thing much happening.

At this stage, the universe would have been initially dense smoke where even light could not pass through it and ended finally with light smoke through which light can pass.

- 10) At the end of this stage, when the temperature was reduced to a few thousand °c and the production of atoms had increased and at places, where the atoms were denser than its surroundings, they would have

started contracting and spinning. And as the contraction continued the spinning stopped when centrifugal force of spinning cancelled gravitational attraction. Thus disc like rotating galaxies were formed.

Some other type of galaxies became elliptical galaxies with out over all rotation but having all its individual celestial objects orbiting stably around its center.

11. As time elapsed, the smoke of Hydrogen and Helium gases started gathering together as in a cloud and started collapsing, which increased its temperature starting thermo nuclear fusion. The nuclear fusion which converts Hydrogen into Helium increased the temperature of the cloud and the cloud stopped contraction when it attained sufficient temperature and stabilized itself as the 1st stage stars. Then the further heat produced by the continuing nuclear fusion is emitted out as heat and light, as what is happening with our sun.
12. These first stage stars burn out their Hydrogen in relatively short time of 10 crore (100 million) years and shrink a little. Because of this shrinkage, their temperature increases and starts converting Helium into heavier elements like Carbon, Oxygen metals etc. and also for some unknown reason, become Neutron stars or black holes and some times their outer regions get blown off in a tremendous explosion and become super Nova, flungging some of their heavier elements as debris into the smoke of galaxy. These heavier elements become raw material for the next generation of stars.

Our own sun contains about 2% of these heavier elements and it is probably a second or third stage star formed about 500 crores (5 billion) years back.

Some of the remaining debris collects together to form planets like our earth, which orbit their adjoining stars.

The Earth was very hot initially without any atmosphere. In the course of time it cooled and acquired an atmosphere of poisonous gases like Hydrogen sulphide etc., from the emission of gases from the rocks. Some primitive form of life which could flourish in that atmosphere developed. They consumed the poisonous gases and released Oxygen which helped to develop our present atmosphere. Under this atmosphere Higher forms of life developed.

- 14) The sum total of energy of the universe is "Zero"
- 15) Particles can be created out of energy in the form of "PARTICLE/ANTI PARTICLE PAIRS"
- 16) The matter in the universe is made out of positive energy. Gravitational energy is negative. These two energies are equal and opposite to each other. So however much matter is produced the total energy of universe remains "ZERO".
17. The universe is so uniform on a large scale that it looks the same at all points of space and in all directions.
18. The universe is still continuing to expand. It will stop expanding and start contracting only when the "BIG CRUNCH" sets in and "TIME REVERSAL" starts

This gives roughly a synopsis of present day Scientists' idea of Universe, Now let us compare the information

given in AL QUR'AN on this subject with the scientific findings.

Verse 21:30. Do not the unbelievers see that the heavens and the earth were joined together (As one unit of creation) before we clove them asunder.

The 'Big Bang' is indicated here.

Verse 41:11. Moreover, HE comprehended in HIS design the sky and it had been (as) 'smoke'.

The Universe was in gaseous state, before galaxies were formed. This state is described even more appropriately as "smoke" in AL QUR'AN.

Verse 51:47. We have built the firmament with might and we indeed are expanding it.

Verse 79:28. On high hath HE raised its (Heaven's) canopy and He hath given it order and perfection.

Verse 67:3. Who has created the seven heavens one above another. You can see no incongruity in the creations of the most gracious.

In 1925 an American Astronomer Edwin Hubble has discovered that the universe is expanding in all directions.

AL QUR'AN says this explicitly in verse 51:47 and by implication alludes to it in 79:28.

The perfection and order seen now in the whole of universe established after the chaos of 'Big Bang' is also clearly mentioned in Verse 79:28.

Verses: 25:59 & 32:4. ALLAH, it is HE who has created the heavens and the earth and all in between them in six periods.

In the universe apart from celestial objects, there is 'Plasma' in the interstellar space. This plasma is the completely ionized gas containing equal number of electrons and positive ions.

The above verse recognizes and refers to the presence of this inter stellar matter.

Verse 57:25 We sent down Iron in which is great might as well as many benefits for mankind.

The production of heavier elements like metals including iron takes place only in the 1st stage stars because they can take place only in that high temperatures obtained in the 1st stage stars. The outer regions of 1st stage stars some times get blown off flung some of their heavier elements like Iron as debris into the smoke of galaxy. Some of these debris collect together to form planets like earth.

This fact is dramatically brought forth in verse 57;25 when it states that Allah has sent down iron.

Verse 36:82. Verily when He intends a thing HIS command is "BE" and it is.

Verse 36:36. Glory to HIM who has created in pairs all things the earth produces as well as their own (human) kind and things which they know not.

Verse 51:49. And of every thing WE have created in pairs, that you may ponder.

Verse 55:26. All that is on it, will perish.

Verse 55:27. And the face of thy LORD full of majesty and honor will remain for ever.

Verse 28:88. Every thing will perish except His face. His is the decision and to HIM you (all) shall be returned.

ALLAH (s.w.t) has created every thing known as well as unknown to humanity in pairs from nothing, only by HIS command and will make them go to nothing at the end by HIS command. That is what science also says as the sum total of energy in universe is 'ZERO', i.e nothing, and whatever amount of "PARTICLE/ANTI PARTICLE" pairs which are equal and opposite to each other in energy comes into existence in the whole of universe, their sum total of energy will always remain 'ZERO' and at the "BIG CRUNCH" every thing will Join together and get annihilated and become ZERO.

The Verse 55:27. says that ALLAH(s.w.t.) will remain for ever, about which science is not able to provide any proofs so far and also we don't known whether humankind will ever be able to find the proof for that, because ALLAH(s.w.t.) says in Verse 2:255" they will never grasp any thing of HIS knowledge except that which "HE WILLS"

CHAPTER 24

GRAVITATION

Verse 35:41. Verily ! Allah grasps the heaven and the earth lest they should move away from their place and if they were to move away from their places there is not one that could grasp them after HIM.

ASTRONOMICAL SCIENCE says that all objects in the universe are having gravitational force and all celestial bodies are held in position by the perfect balance of gravitational forces of all of them.

Verse31:10 He has created the heavens without any pillars that you see.

Verse 13:2. ALLAH is He who raised the heavens without any pillars that you see.

The Above two verses indicate the balance of gravitational forces which are holding everything in position in the sky, by saying He has created heaven without supporting pillars.

Verses 77:25-26. Have WE not made the earth grasping the living and the dead.

We can plainly see the earth grasping dead bodies when buried, but the statement that the earth is grasping even the alive can be only by through gravitation. The full explanation is given in the next passages

Verse 67:19. Do they not observe the birds above them spreading their wings and folding them in? None upholds them except the most gracious.

Verse 16:79. Do they not see the birds held poised in the midst of the sky? None holds them but ALLAH . Verily in these are signs (proofs) for people who believe.

MODERN SCIENCE has found out that the world is rotating on its own axis once in every 24 hours and also it is moving in an orbit around SUN taking about 365 1/4 days to complete one orbit.

Because of its own rotation it is developing centrifugal force on all objects upon it and also on the atmosphere around it.

All the objects on the earth and around it would have been splashed into the space if the earth is not gripping them by its gravitational attraction.

Apart from this, the earth is moving at a speed of about 250 k.m. per second to complete its orbit around sun. The atmosphere around the earth and the birds which are flying in the sky without having any contact with the earth would have been left behind from the moving world if they were not grasped by the earth and dragged along with it by its gravitational attraction.

CHAPTER 25
ORBITS OF SUN AND MOON AND
THE SHAPE OF EARTH

Verse: 21:33 And HE, who has created the night and the day, the sun and the moon and the earth floating (Swimming) in an orbit.

Verse: 36:38 And the Sun runs on its fixed course for an (appointed) term. That is the decree of the Almighty, the All knowing.

Verse: 36:40 It is not for the Sun to overtake the moon, nor does the night the day. They all Float,each in an orbit.

Verse: 13:2 He has subjected the sun and the moon each running for a term appointed.

Verse: 39:5 He has created the heaven and the earth with Truth. He coils night on day and day on the night. He has subjected the sun and the moon (to

HIS law), each moving (on a fixed course) for an appointed term. Verily HE is the Almighty, the oft forgiving.

CONFIRMATION BY SCIENCE

Ancient belief was that the world was flat and fixed at the center of universe and every celestial object goes around it. People were even afraid that they may fall off the edge of earth if they travel too far.

In 1512 'Nicolus Copernicus' has propounded that sun is stationary and all planets including earth goes around it. In 1609 'Yohanus Keplar' found out that all planets goes around the sun in elliptical orbits and also they revolve themselves on their own axis at their own speed.

But now it is found out that sun is also revolving on its own axis taking 25 days for one revolution. And also it is established now that the sun and its planets are part of our galaxy called 'Milky way', and our galaxy is revolving on its axis and hence the sun and its family of planets are travelling at the speed of 150 miles per second along with Milky way Galaxy and the galaxy will take 20 Crores (200 million) of years to perform one round on its axis.

Further the sun will burn out when it reaches the point named "Solar Apex" in the constellation of Hercules. With reference to these scientific findings let us compare the information given by AL QUR'AN and what can be construed from them.

1) Sun and moon are not stationary and are floating (Swimming) in their own path (orbit) with their own movements.

Sun and moon are round and so spinning is the only method by which they can exert themselves. Hence

we can safely draw conclusion that the Arabic word 'Yasbahoon' as applied to round objects like sun and moon implies their spin movement only.

- 2) The orbits of sun and moon are completely removed from each other and will never cross each other.
- 3) The sun is travelling for its fixed term appointed to reach its place of extinction.

The fact that the earth is not flat but only round can be deduced from the statement that HE coils night on day and day on night.

VERSE35:13 HE merges night into day and HE merges day into night.

Merging night into day and day into night implies a gradual process and it can occur only if the world is round and spinning.

If it is flat day or night can come only suddenly like what happens when light is switched on or off.

Verse:79: 30.The earth, HE has made it as ostrich egg.

The Arabic word 'dhahaha' has got two meanings (1) Spacious place (2) ostrich egg.

Here AL QUR'AN says that the earth is made in the shape of an ostrich egg. This is exactly what science has found out now. The Earth has flattened surface at both north and south pole, as the ostrich egg's shape has.

CHAPTER 26

THE LIGHTS OF SUN AND MOON

Verse 25:61 Blessed is HE who has placed in the heaven big stars and has placed therein a great lamp(sun) and a moon giving light.

Verse10:5. It is HE who made sun a shining glory and the moon as light.

Verse71:16. And has made the moon a light therein and made the sun a lamp.

AL QUR'AN always refers the sun as 'Siraj'-a lamp or lighted torch, 'Wahhaj'-a burning lamp, Liyavu' - a shining glory. Similarly AL QUR'AN always refers the moon as 'Noor' - light or 'muneer'- brightness. From this we can clearly see that AL-QUR'AN differentiates the light given out by the sun and the moon and clearly indicates that the sun gives out its light by burning as a lamp or torch and the moon is having only brightness or light, which is not given out by any burning. This is what science has established now. The sun is giving out heat and light by the heat of thermo nuclear fusion and the moon is only reflecting sun's light back to earth.

CHAPTER 27

11 PLANETS TO THE SUN

Verse 12:4. When Yusuf said to his father “O my father ! Verily I saw eleven planets and the sun and the moon prostrating themselves to me (in my dream).

CONFIRMATION BY SCIENCE

The entire world was believing even till 1999 that there are only nine planets to our sun. 1) Mars 2) Mercury, 3) Jupiter, 4) Venus, 5) Saturn, 6) Earth, 7) Neptune, 8) Uranus 9) Pluto.

During 1978, an Indian Astrophysist Mr. J.J. RAWAL found out that the 2 distant planets Uranus and Pluto are making significant deviations in their orbital paths at 2 places and deduced that this is because 2 more planets are there at those places causing gravitational attraction. He has published many scientific papers and was lecturing throughout the world about his findings.

In the Year 1988 NASA of USA has confirmed from their various space research findings that there is a planet at the 11th place as suggested by J.J. Rawal and gave details of weight, orbital path etc. which were mostly identical to Rawal's Calculated Data.

Similarly in 1999 NASA further confirmed that there is another planet at the 10th position suggested by Rawal. Now these two planets are waiting to be confirmed by sighting.

Thus the number of Planets to the sun is now established by science as 11 which confirms what is given in ALQURAN.

CHAPTER 28

SUB ATOMIC PARTICLES

Verse 34:3. Not even the weight of an atom or less than that or greater escapes HIS knowledge in the heavens or Earth but it is in a Clear Book. (see also Verse 10:6)

Till 19th Century, Scientists were believing that atom is the smallest entity of matter and it cannot be further subdivided. Only during 20th century it was discovered by science that atom is made up of Electrons, Protons and Neutrons and many more sub atomic particles upto a particle "Neutrino" which has almost no mass. AL QUR'AN's statement of particles smaller than atom is thus established.

CHAPTER 29

MOUNTAINS AS PEGS

Verse 78:6,7. Have WE not made earth as cradle
and mountains as pegs?

Verse 16:15. And HE has affixed into the earth
mountains standing firm, lest it
(Earth) should shake with you.

GEOLOGY has found out in this century the phenomenon of plate tectonics which gives a stunning theory on the nature of Earth's architecture. It says that the earth's surface consists of about ten internally rigid "Plates" moving continuously relative to each other. Their boundaries are Geological faults and earthquakes, volcanoes, movement of continents, formation of mountain ranges etc., geological phenomena are completely explained by this theory.

This theory has found that plates are either drifting from each other and separating like that land mass of Africa that had split and moved away forming a separate continent of south America, or plates are moving closer

like Africa plate moving northwards with respect to Eurasia plate producing continental collision zones like in IRAN.

This 'PLATE TECTONICS THEORY' says that at the continental collision zones they get stuck and start to be squeezed up and down and sideways and it is this Phenomena that cause 'FOLDING' and acts to form mountain ranges.

The height of the mountains seen above the land can be up to 10 k.m. and the depth to which the mountains are embedded can be up to 70 k.m.

These mountains are shaped like pegs and are doing the function of pegs, stabilising the earth's crust from further movement.

This great geological truth is found out only during 1960-1970 but it is explained in AL QUR'AN so graphically and in such a beautiful simple term which even the ordinary people can understand.

CHAPTER 30**WATER CYCLE**

Verse: 23:18 And we send down water from the sky according to measure and we cause it to soak in the soil. We certainly are able to drain it off.

Verse: 39:21 Seest thou not that God sends down rain from the sky and leads it through springs in the earth?

Verse 30:24 He sends down rain from the sky and with it gives life to the earth after it is dead. Verily in that are SIGNS for those who are wise.

Verse 13:17 He sends down water from the skies and the channels flow, each according to its measure. But the torrent bears away the foam that mounts up on the surface, like the foam that rises on that(ore) which they heat in fire to make ornaments or utensils. Thus forth ALLAH shows truth and falsehood. Then as for foam it passes away as scum

upon the banks while that which is for the good of mankind remains in the earth. Thus ALLAH sets forth parables.

Verse 15:22 And we send the fecundating winds and then cause the water to descend from sky, therewith providing you with water, though you are not the guardians (owners) of the (water) reservoirs.

Verse 30:48 It is ALLAH who sends the winds and they raise the clouds, then does HE spread them in the sky as HE wills and breaks them into fragments until thou seest rain drops issue from the midst there of then, when HE has made them reach such of HIS servants as HE wills, Behold they do rejoice.

Verse 30:46 Among HIS signs is this, that He sends winds as Heralds of glad Tidings.

SCIENTIFIC THEORY OF THE WATER CYCLE

The concept propounded by 'Bernad Palissy' in the year 1580 says how water evaporates from oceans and are raised by the winds to the sky. It cools and forms clouds, winds drive them into land, impregnates them, scatters them and it rains at various places. The rain water runs in streams, some soaks into the earth, and some runs to reservoirs and oceans. Again water evaporates from ocean etc. and the water cycle goes on for ever.

AL QUR'AN gives this water cycle very eloquently in the above referred verses, even before 1430 years.

CHAPTER 31

HEAVEN THAT RETURNS

Verse 86:11 By the Heaven which returns.

CONFIRMATION BY SCIENCE:

This verse refers to sky as the one that returns and it is a beautiful statement par excellence expressing a most significant scientific truth.

- 1) Sky returns as rain only the water vapours it gets.
- 2) "Ether" in the sky returns the Radio signals broadcast from ground 'it returns only what it gets'.
- 3) It reflects the harmful ULTRA VIOLET rays back to space away from earth - 'returns what it gets'

Who else except ALLAH (s.w.t.) can give such a great scientific truth so simply and beautifully just in three words.

CHAPTER 32

MESSAGE ABOUT LAND AREA GETTING REDUCED

Verse 21:44. See they not that we gradually reduce the land from its outlying borders?

MODERN SCIENCE has found out that general temperature of globe is increasing due to various reasons. Due to this global warming the permanent icecaps at the polar regions are melting and raising the sea level slowly. Because of this increase in sea level, sea bordering lands are being gradually inundated away by sea water and thus reducing land area and increasing sea area.

The truth of this modern scientific finding is already given in AL QUR'AN Which was not known to human knowledge at the time of revelation of AL QUR'AN.

CHAPTER 33**BARRIER BETWEEN TWO WATERS (SEAS)**

Verse 27:61 Is not HE who has set a barrier between the two seas?

Verse 35:12 And the two seas are not alike, this is fresh, sweet and pleasant to drink, and that is salt and bitter.

Verse 25:53 And it is HE who has let free the two seas one palatable and sweet and the other salty and bitter. HE has set a barrier, a partition that is not to be passed.

Verse 55:19, HE has set free the two seas
20 meeting together. Between them is a barrier which they do not transgress.

MODERN SCIENTIFIC FINDING:

At the junction of 2 different seas having different parameters in density, salinity, temperature etc, there is

Monotheism...

95

a slanting water barrier. Each sea maintains their distinct specifications even though both of them meet.

It is also now found out that within the seas there are areas with fresh water adjoining salt water. In these areas artisan springs are gushing forth from sea bottom creating an area of fresh water in the midst of sea water.

These modern scientific discoveries are stated in AL-QUR'AN, 1430 years back itself!

CHAPTER 34

ALL LIVING THINGS ARE MADE FROM WATER

Verse 21:30. And WE have made from water every living thing. Will they not then believe?

Verse 24:45. ALLAH has created every moving (living) Creature from water.

Verse 25:54. And it is HE who has created man from water.

MODERN SCIENTIFIC DISCOVERY :

All the living things are made up of cells. The major component of cell is cytoplasm. It contains 80% water. Without water no living thing can survive.

Now science has established that out of all liquids known to human beings, water is the only liquid that can sustain life metabolism because of its rare capacity to act both as acidic and basic solution.

The CREATOR only knew this information 1430 years ago, and so HE alone could have said it in AL QUR'AN.

CHAPTER 35

JINNS ARE MADE FROM SMOKELESS FIRE.

Verse 55:15&15:27 And the Jinn, we created
before (Creation of Humans)
from the smokeless flame of fire.

SCIENTIFIC DISCOVERY :

Till 1982 the firm scientific belief was that for the existence of life, water, atmosphere with oxygen and livable temperature range of say about 0° to 60° C is essential.

Of all the liquids, water is the only liquid which is having all the required properties for sustaining life's metabolism. For this ALLAH (s.w.t.) has given very special parameters to water which are out of concurrence with periodic table of elements.

Now a bacterial species never seen on earth until 1982 has come to scientific view. There are deep holes in the sea bottom which spew super heated sea water in plumes from chimneys in the earth's crust known as

'black smokers'. This is extremely hot water under extremely high pressure with temperatures in excess of 300° C.

Now Research submarines are built to descend 2500 meter or more to the edge of "Black Smokers". Oceanographic scientists have now discovered the presence of throbbing colonies of "BACTERIA" in waters fished directly from the "Black smokers" using pressurised Chambers heated to 250°C.

At this high temperature and pressure the "Bacteria" not only survive but reproduce themselves, enthusiastically. They can be killed only by chilling them down to boiling water. When viewed through electron microscope they look like ordinary Bacteria.

The possibility of life as we know it now was ruled out in the early stages of our planet because of high temperature.

AL QUR'AN in the two verses quoted above says that ALLAH (s.w.t.) has created the species called JINN from smokeless flame of fire, before HE created humans.

Also consider verse 2:30: "And when your Lord said to the angels 'verily I am going to place mankind on earth', they said "will you place therein those who will make mischief therein and shed blood while we glorify you with praise and sanctify you?"

Even before Allah (s.w.t) created mankind, angels could not have known about the mischief and shedding of blood which mankind may indulge in. Most probably, the angels may be expressing their apprehensions from

Monotheism...

99

what they have seen with JINNS who were created before mankind and indulged in such atrocities.

So this scientific discovery of “Bacteria” living in temperatures in excess of 300°C shows that ALLAH (s.w.t.) can create life at high temperatures also. So one myth about livable temperature for life is removed. But still the assumption of the necessity of liquid base of water for life is not solved. JINNS are supposed to be high temperature, gaseous based life. Science has to solve this myth yet.

CHAPTER 36

TOTAL DARKNESS IN THE DEEP WATERS OF OCEAN.

Verse 24:40 Or (the state of a disbeliever) is like the darkness in a vast deep ocean, overwhelmed with waves topped by waves, topped by dark clouds (layers of) darkness upon darkness. If a man stretches his hand, he can hardly see it. For any to whom ALLAH giveth not light, there is no light?

CONFIRMATION BY SCIENCE.

MODERN OCEANOGRAPHY has found out that at depths of vast oceans there is accumulated total darkness. Even fishes without their own source of light cannot see in those depths.

It is dramatically and accurately described in AL QUR'AN that the darkness is produced in three stages. First the dark clouds; second, the ocean surface waves; third the internal waves. At those depths there is

pitch darkness to the extent that the diver cannot see even his own hands.

MODERN SCIENCE gives detailed explanation for this whole phenomena bringing out the simple grandiosity of AL QUR'AN'S statement.

The light rays from the sun or moon or stars are first blocked by dark clouds, some portion of light is reflected back, some more portion is absorbed and only the remaining portion is sent down. This light is again scattered by surface waves of the ocean and the balance of light only passes into the water as a refracted light splitted into its composite colours of 1) Violet, 2) Indigo, 3) Blue, 4) Green, 5) Yellow, 6) Orange, and 7) Red. At depth after depth Red, orange, yellow, green, blue, Indigo, and violet portion of the refracted light is absorbed by sea water one by one in stages. There are internal waves at great depths of the ocean and below them none of the seven components of the light gets in and total darkness is established.

This is a beautiful presentation of a wonderful scientific truth given by AL QUR'AN.

CHAPTER 37

EXTRA TERRESTRIAL BEINGS

Verse 42:29 And among His signs is the creation of the Heavens and the earth and living creatures HE has dispersed in them both, and HE is All potent to gather them together when HE wills.

Verse 27:65 Say, "None in the Heavens or on earth except ALLAH knows secrets, nor can they perceive when they will be resurrected.

MODERN SCIENTISTS are investigating to find out whether there is life in any other planet, and if so in what form. Even though they are sure of such existence, they are not able to give conclusive proof so far. But AL QUR'AN says that living creatures are disbursed on earth as well as other places in Heaven. It is now for scientists to confirm.

CHAPTER 38

GENETIC MANIPULATIONS

Verse 4:119 (Satan) will order them. Then they
will change ALLAH's creations

The activities of present day genetists, like cloning,
DNA manipulations like splicing and recombinent
techniques are referred to in the above verse.

CHAPTER 39**BREATHING DIFFICULTY AT HIGHER ALTITUDES**

Verse 6:125 Whomever HE wills to send astray
HE makes his breast closed and
constricted as if he is climbing to the
sky.

CONFIRMATION BY SCIENCE:

The breathing difficulty that happens at higher altitudes
and during space travel is clearly mentioned even 1430
years back in the above verse.

CHAPTER 40

SPLITTING OF MOON

Verse 54:1. The Hour has drawn near and the moon has cleft asunder.

The DISBELIEVERS OF MAKKAH challenged prophet MUHAMMAD (s.a.s.) to show them a miracle if he is ALLAH (s.w.t.)'s messenger.

So in the year 620 (2 years before Hijrath) in the full moon day of the month of Rajab, Rasul (s.a.s.) climbed up the hillock "Ab Qubais" and pointing two of his fingers towards moon, made a signal by spreading the two fingers. Then "the moon split into two and moved away from each other". They remained separate until the morning.

This was seen throughout Arabia and up to Syria and also in India. The king "BHOJ" of the state of Malwa and the king of Travancore charamon Perumal also saw the wonder. After making enquiries they traced the miraculous act to Rasul (s.a.s.) and made contact with him and embraced ISLAM.

Now A PROBABLE SCIENTIFIC EVIDENCE to this occurrence has come in the form of an unexplicable finding made by American moon probe of 1967. Two remarkable pictures of the hindden side of the moon taken by the moon probe shows a cleavage of 240 k.m. long and 8 k.m. wide. Its edges do not look like an effect caused by any geological phenomena but looks like that of a blow inflicted by a tremendous axe. ALLAH (s.w.t.) knows whether it is the remnants of the splitting of the moon.

CHAPTER 41

MANY WORLDS

Verse 65:12 ALLAH is HE who created seven Firmaments and of the earth a similar number.

MODERN SCIENCE definitely believes that surely there are other worlds like ours. It has yet to find any of them.

CHAPTER 42

ALLAH (s.w.t.) IS SWIFT IN TAKING ACCOUNT

Verse 24:39 And ALLAH is swift in taking Account.

On the day of Judgment ALLAH (s.w.t.) will finish all hearing of all the persons from Adam (a.s.) to the last person to appear on earth before judgement day and will pronounce HIS judgement within a day which is equal to our 50,000 years.

During the hearing even an atom's weight of good or bad will not be left out of reckoning and consideration. Their tongues will be tied and all the parts of their bodies will be made to give evidence separately.

We will never be able to comprehend the swiftness that will be required to finish this gigantic task.

We don't know whether the best swiftness that is created by modern computer and communication technology can give an inkling of ALLAH (s.w.t.)'s swiftness in getting all the minute acts weighed meticulously.

The world's biggest library is in Washington DC containing some 17 million books and it is estimated that 116 trillion bits will be required to put the contents of these books in digital format. Even this entire collection could be sent just any where in the world in merely 1.16 seconds, using a modern fibre optic cable capable of transmitting 100 trillion bits per second.

When human's ingenuity can achieve this swiftness, judgement day's swiftness should be a scientific feasibility.

CHAPTER 43

BEES AND HONEY.

Verses 16:68,69. And your Lord inspired the bees to build its nests in Hills, on trees and in (men's) habitations. Then to eat of all the produce (of the earth) and find with skill the paths of its Lord. There comes forth from their bellies a drink of varying colours wherein is healing for men. Verily, in this is indeed a sign for people who ponder.

CONFIRMATION BY SCIENCE:

A Scientist named VONFRICH Made extensive reseach on bees and discovered the following data about their behavior, pattern of communication, sex, honey etc. and got nobal prize in 1973 for the same.

1. The worker bees that go out in search of food are female bees only.

2. The queen bee that is in the nest producing all bees is female.

3. The worker bees who find new gardens go back and tell their fellow bees about the exact location and the route to reach there by their method of communication called "Bee dance".

4. The bees eat from the flowers and fruits whatever they want. Whichever they eat get altered in their belly and comes out as honey.

The old belief that the bees collect honey from flowers and bring it directly and store in waxcells is not correct.

Let us see what AL QUR'AN says about bees.

In all the verses quoted above (16:68 and 69) ALQUR'AN refers to the worker bees in feminine gender confirming that the worker bees are females only

The bees are provided with inspiration from ALLAH (s.w.t.) to find their path.

Honey is issued from the belly of bees in various colours There is healing property in Honey.

All the above statements in ALQUR'AN are in complete agreement with the present day knowledge about Bees and honey.

Nobody except ALLAH (s.w.t.) knew this at the time of revelation of ALQUR'AN.

CHAPTER 44

ANTS

Verse 27:18 When they came to the valley of Ants, one of the ants said. "O Ants! Enter your dwellings, lest Sulaiman (a.s.) and his hordes should crush you without perceiving.

MODERN DISCOVERIES ABOUT ANTS:

- i) The ants bury their dead in a manner similar to Human.
- ii) They have managers, supervisors, foreman, workers etc.
- iii) Once in a while they meet and "Chat"
- iv) They hold regular market and exchange goods
- v) They have an advanced communication system.
- vi) They preserve the grains by drying and cutting out the buds etc.

AL QUR'AN's statement of one ant telling to other ants is not a fairy tale but it is a scientifically possible truth.

CHAPTER 45

MILK PRODUCTION

Verse 16:66 And verily in cattle there is a lesson for you. WE give you to drink of what is inside their bodies coming from a conjunction between the contents of intestine and the blood, a milk pure and pleasant for those who drink it.

CONFIRMATION BY SCIENCE:

Scientific discovery of blood circulation itself was found out only in 1500 A.D. and the finding of milk being produced by mummy glands from what is brought to it by blood from the contents of intestine is discovered in the 20th century only.

AL QUR'AN has said this 14 centuries ago in simple terms as milk coming from the conjunction of blood and the contents of intestine.

CHAPTER 46

FINGER PRINTS

Verse: 75:3. Does man think that we cannot assemble his bones?

verse 75:4. Nay, we are able to put together in perfect order the very tips of his fingers.

CONFIRMATION BY SCIENCE:

None of the parts of the Human body can be said as belonging to a particular person only. The prints on the finger tips only vary from person to person. Now we know that no two persons will have identical and same finger prints and hence from 1880 onwards finger prints are being used for identifying individuals worldwide. Only the CREATOR knew this truth at the time of revelation of the Quranic verses cited above. It took 13 centuries to the Humanity to discover this secret and one more century to understand these verses.

CHAPTER 47

PAIN RECEPTORS

Verse 4:56 Surely those who disbelieved in our signs, We shall burn them in fire. As often as their skins are roasted through, WE shall change with other skins that they may taste the punishment. Truly ALLAH is Ever Most Powerful, All wise.

CONFIRMATION BY SCIENCE:

It is only recently discovered that there are pain receptors in the skin and only if they sense the pain and send message to the brain, the person feels pain.

If these pain receptors are destroyed as in the case of burning, acid corrosion etc. the person cannot feel pain.

Professor Tagatat Tajasen of Thailand has spent considerable time of his life in research about pain receptors. When he came to know about this Quranic verse, he verified the truth of it by referring to the translations of AL QUR'AN. He was so much convinced about the devine source of AL QUR'AN, he embraced ISLAM, the true religion of the 'CREATOR'.

CHAPTER 48

PERMANENT DAY AND PERMANENT NIGHT

Verse 28:71 Say "Tell me! IF ALLAH made the night continuous for you till the day of Resurrection which ILAH (God) besides ALLAH could bring you light? will you not then hear?"

Verse 28:72 Say "Tell me! If, ALLAH made the day continuous for you till the day of resurrection which ILAH (God) besides ALLAH Could bring you the night wherein you take rest? Will you not then see?"

CONFIRMATION BY SCIENCE

If you question, how ALLAH (s.w.t.) can tell an impossible thing and thus say a falsehood, the modern scientists have proved that it is possible to create permanent night to half world and permanent day to the other half of the world, if only we can make the world spin around its axis once in 365 1/4 day, the time it takes

Monotheism...

117

to orbit the sun once. ALLAH (s.w.t.) can do this if HE wills.

There is a vivid example in Moon for this phenomena. Recent Astronomical discovery says that the moon spins around its axis once in 29.6 days approximately, which is exactly equal to the time it takes to go round the earth once. Because of this, one side of the moon is always hidden to the world, where as the other side is permanently visible to the earth.

CHAPTER 49

SIGN IN DAY AND NIGHT COMING ALTERNATLY

Verse 24:44 ALLAH causes the night and the day to succeed each other. Truly, in this is indeed a lesson for those who have insight.

CONFIRMATION BY SCIENCE :

ALLAH (s.w.t.) says that there is a SIGN for you in making the Day and night to come alternately.

All the planets of the sun take different spinning times specific to each of them.

The spinning time is one day for world and the longest time of 250 days is taken by Venus. If we happen to be in venus our night time will be equal to 125 days (3000 hours) and day time will be equal to 125 days (3000 hrs) We cannot mentally and physically survive such long day and night. This is the lesson ALLAH (s.w.t.) wants us to understand.

D THE CHALLENGES OF AL QUR'AN
REMAINING UNBEATEN TILL TODAY

CHAPTER 50

CHALLENGE TO PRODUCE A 'SURA' LIKE THIS:

Verse 2:23 And if you are in doubt as to what WE have revealed from time to time to our slave, then produce a SURA (Chapter) of the like thereof and call your witnesses or helpers besides ALLAH if you are truthful.

Verse 2:24 But if you do it not and you can never do it, then fear the (Hell) fire whose fuel is men and stones (idols worshipped by polytheists) prepared for the disbelievers.

Verse 17:88 Say "If the whole of mankind and Jinns were to gather together to produce the like of this AL QURAN, they can not produce the like thereof even if they backed up each other with help and support.

Verse 28:49 Say "Then bring a book from ALLAH which is a better guide than these two (The Taurat (TORAH) and the QUR'AN) that I may follow it, if you are truthful.

This challenge stands for the last 1430 years. In spite of great efforts taken by many people who wanted to discredit AL QUR'AN, they were not able to meet this challenge till today.

What ALLAH (s.w.t.) has said cannot be falsified by anybody.

CHAPTER 51

SHOW ONE CONTRADICTION IN ALQUR'AN

Verse 4:82 Do they not then consider the QUR'AN carefully. and if it has been from other than ALLAH they would surely have found therein many contradictions.

All these 1430 years, enormous efforts by enormous number of people was taken to findout atleast one Contradiction in AL QUR'AN and no contradiction was yet discovered so far. Many people who did this searching with Venomous intentions were overtaken by the truth and beauty of AL QUR'AN, that they have accepted ISLAM as their "DEEN" (RELIGION).

CHAPTER 52

SHOW ONE FALSEHOOD IN AL QUR'AN

Verse 41:41 And indeed it is book of Exalted power.

Verse 41:42 Falsehood cannot come to it from before or behind it. It is sent down by one full of **WISDOM, WORTHY OF ALL PRAISE.**

Till now no falsehood has been discovered in AL QUR'AN inspite very strenuous search by scholars with genuine interest and by other shcolars with furious hatred towards ISLAM. As a matter of fact there is no other scripture that deals with so many disciplines of knowledge as AL QUR'AN. You would have very well observed this from what you have read in this book so far. In all these fields whatever is said in AL QUR'AN was found to be absolutely correct and nothing was contrary to any of the scientific discoveries made so far in this world.

EPILOGUE

With this we come to the conclusion of this part of the book.

Apart from the scientifically proven evidences given so far in this book there can be some more evidences missed by us because of lack of knowing them,

And also there are many more evidences in the sayings of MUHAMMAD (s.a.s.) proving the divine sources of the messages. We have restrained ourselves from including them in this book for the following reasons:

- i) The enormity of the evidences we have already given are enough even to the worst skeptics to see the TRUTH.
- ii) We have confined ourselves to the evidences from AL QUAR'AN only which cannot be refuted and are easy for anybody to check.

During subsequent times "INSHA ALLAH" (Allah willing) we are planning to make a separate collection of further evidences that may come to light and also the evidences from the sayings of MUHAMMED (s.a.s.).

PART - III
GUIDANCE GIVEN BY AL QUR'AN
TO THE WHOLE HUMANITY

PREFACE

THIS IS THE TRUTH - THE ULTIMATE TRUTH

PROVEN BY IRREFUTABLE, VERIFIABLE SCIENTIFIC PROOFS NEEDED BY OUR OWN SCIENTIFIC ERA.

SHOW US, IF YOU CAN, ANY OTHER PROVEN TRUTH CONTRARY TO THIS.

WE HONESTLY BELIEVE THAT THERE CAN BE NONE.

SO, YOU TAKE HEED, LIVE AS PER THE GUIDANCE GIVEN, TO SAVE YOURSELF FROM AN UNHAPPY, HUMILIATING PUNISHMENT IN THE LIFE HERE AFTER AND ACHIEVE PEACE AND TRANQUILITY IN THIS WORLDLY LIFE.

This is the essence of this book and also the purpose for which this book is written. What you have read so far in this book are matters to convince you fully without even an iota of doubt that our CREATOR is existing and AL QUR'AN is the ABSOLUTE TRUTH revealed by HIM and there are no falsehoods in it.

We hope we have succeeded in our attempt.

NOW LET US TAKE A BREAK.

LOOK into yourself. If you are still having even an iota of doubt, please go back to the book and RE-Read until your doubts are cleared.

Even after this attempt if you are still left with some lingering doubts please contact us in any form of communication convenient to you. We are here waiting anxiously to clear every doubt of every reader.

Even after this attempt also if you are still not convinced that AL QUR'AN is ABSOLUTE TRUTH given by our CREATOR, we would only advise you to save your time by not reading the book any further.

If you still decide to continue to read the book fully for FUN, please go ahead and get thrilled by the beauty and simplicity of the advices given by the CREATOR and their Complete relevance for eliminating the present day ills of Humanity, like personal, social, cultural, economic, exploitative, greedy, unjust etc. etc. problems.

You will find that for every ill of today's world there is a solution in ISLAM, the Religion of the CREATOR and

ISLAM IS TOTAL SOLUTION architected by our own CREATOR HIMSELF and not by any humanbeing.

As we consider it worth while, we are repeating here what we have given in the last cover page of the book because we feel it is worth repeating.

Please BUY THIS BOOK only if you want..

to know the absolute truth,
to correct your living to the correct way of life,
and to save yourself and your beloved ones from a
definite humiliating punishment.

THE CREATOR ALLAH (s.w.t.) has given in plain terms the way of Life HE wants the HUMANITY to live and about the WONDERFUL REWARD of HEAVEN for those who heed to HIS GUIDANCE and live the beautiful ISLAMIC LIFE.

He also tells in same plain terms the humiliating punishment of HELL waiting for those who go astray without following HIS GUIDANCE.

VERY IMPORTANT

As long as these matters were just FAITHS based on Holy Beliefs only, they could have been taken less seriously. But now we are bringing in a NEW DIMENSION of scientific proofs for Islamic faith confirming it as ABSOLUTELY PROVEN TRUTH.

Please know that Death is not the end of human life. But where we are going to end up in our eternal life after the judgement day's final judgement is the true end of human life.

This makes it Compelling to consider the GUIDANCE most seriously and start to correct our way of life towards the true guidance step by step without remaining neglectful anymore so as to save ourselves from the bad consequences.

AS WE HAVE LIFTED ISLAMIC FAITH FROM JUST BELIEF TO ABSOLUTELY PROVEN TRUTH WE ARE VERY MUCH WORRIED TO THINK ON THE BURDEN THAT THIS INFORMATION CAN IMPOSE ON THE MINDS OF THE REALLY THINKING PEOPLE WHO ARE NOT HAVING ANY SERIOUS FAITH SO FOR, OR ARE LIVING IN OTHER FAITHS, OR ARE NOT LIVING THEIR OWN ISLAMIC FAITH SERIOUSLY.

So we have restrained ourselves from enumerating the bad consequences of not living Islamic life in the piercing terms of AL QUR'AN and the sayings of the Prophet MUHAMMAD (s.a.s.) in explaining them.

We are putting them very MILDLY and also giving good suggestions for easy and immediate starting and progressing in stages towards the truth with the most minimal disturbance to your present life style and Personal circumstances and giving methods for easy adjustment with the corrections. We hope ALLAH (s.w.t.) will forgive us for the compassionate and concerned method we adopted because of our enormous love for the disturbed.

CHAPTER 53

FUNDAMENTALS OF THE GUIDANCE GIVEN BY AL-QUR'AN

The Creator of All beings and everything in the universe is ONE and ONLY ONE and is called ALLAH (s.w.t.) in Arabic and other Semitic group of languages. ISLAM is the Religion of ALLAH (s.w.t.) and a person living the Islamic life is called a MUSLIM. AL-QUR'AN wants everybody to live the Islamic life only. MONOTHEISM (Unitarianism) is the foundation of Islam and it requires total submission of our heart, mind, and body to the WILL AND PLEASURE OF ALLAH (s.w.t.) - always accepting HIM as our LORD and surrendering ourselves as HIS SLAVES (Servants) - always obeying his commands only - and not obeying even for a moment any other commands of :

- i. Our own desires
- ii. Proddings of saitan and
- iii. Traditional ways of our ANCESTORS which are contrary to ALLAH (s.w.t.)'s commands

ALLAH (s.w.t.) has created human beings with the innate feeling (FITRA) of Worshipping HIM alone and none or nothing else. During the passage of time whenever

people started deviating from the worship of ALLAH (s.w.t) alone and started worshipping others besides ALLAH (s.w.t.), HE started sending messengers to preach MONOTHEISM and bring back the erring people to the straight path of worshipping HIM alone. All of the messengers starting from ADAM (a.s.) and ending with HIS last messenger MUHAMMAD (s.a.s.), including in between messengers like NUHU (a.s.) (NOAH), IBRAHIM (a.s.) (ABRAHAM), MUSA (a.s.) (MOSES), DAVUD (a.s.) (DAVID), ISA (a.s.) (JESUS) were made to preach the one and the same Divine message of "LAILAHA IL ALLAH" "There is no God but ALLAH".

ALLAH (s.w.t.) has evolved HIS religion of ISLAM from the beginning of Mankind and constantly upgraded it to suit the stages of development of humanity and its capacity to absorb the rulings and finally completed it to be sufficient for all humanity for all time to come during the prophethood of HIS last Messenger MUHAMMAD (s.a.s.) and gave it to him to make it prevail over all other religions. ALLAH (s.w.t.) stands witness for this.

All the tenets of this perfected religion of Islam are given in AL-QUR'AN and ALLAH (s.w.t.) had made HIS last Prophet MUHAMMAD (s.a.s.) to live and show the perfect Quranic life as a perfect example to be followed by all humanity (mankind). All the details of Quranic Way of life which are not explicitly given in AL-QUR'AN are provided in SUNNAH - the practices, the sayings, and tacit approvals of the prophet MUHAMMAD (s.a.s.). As the perfected religion of ISLAM is anchored on "AL-QUR'AN and SUNNAH" of Prophet MUHAMMAD (s.a.s.) the final divine message was completed as "LAILAHA IL ALLAH MUHAMMAD RASULULLAH" "There

is no God but ALLAH and MUHAMMAD (s.a.s.) is the messenger of ALLAH” This is called the “SHAHADAH” (Testimony).

Anyone who wants to accept ISLAM and become a MUSLIM has to pronounce this “SHAHADAH” sincerely with comprehension and correct understanding and relinquish all of his previous ideologies immediately. Then he becomes a MUSLIM immediately. There is no other necessity like changing his name etc., etc., if he does not want it. Accepting Islamic MONOTHEISM is a personal matter between the individual and his CREATOR and nobody needs to know it, or needs to be informed of it, if it is better for him to be that way.

Even a person born in a Muslim family has to pronounce the “SHAHADAH” atleast once in his LIFE TIME to acquire the benefits conferred by ISLAMIC life on Muslims.

It is a pity and a sad state of affairs that there are innumerable muslims born in Muslim families who don't even know this “SHAHADAH” and have not pronounced it even once in their life time.

BENEFITS GAINED BY ACCEPTING ISLAMIC MONOTHEISM

The first and foremost benefit gained by a person upon accepting ISLAMIC MONOTHEISM is coming out of the gravest and unpardonable sin of setting up partners or associates to ALLAH (s.w.t.) which is called “SHIRK” directly opposite of “MONOTHEISM”.

ALLAH (s.w.t.) says that he is not weak to need a “WALI” (helper, protector or supporter) and calls “SHIRK” as the most heinous sin and says that HE will never forgive this sin and He will forgive anything else to whom HE pleases.

This tremendous sin of setting up partners to ALLAH (s.w.t.) will lead to permanent HELL FIRE.

The Second Benefit Upon pronouncing “SHAHADAH” and accepting Islamic Monotheism, all past sins and misdeeds of the person are forgiven and at that moment, the person becomes as pure and sinless as a just born baby.

The Third benefit As soon as he becomes a MUSLIM, he becomes eligible to make “TAUBA” - REPENTANCE and seek the forgiveness of the True and only God ALLAH (s.w.t.) for all of his sins and misdeeds. This is the most important redeeming factor available only to Muslims as they only have accepted ALLAH (s.w.t.) as their God and only ALLAH (s.w.t.) is entitled to accept repentance and forgive sins. Except Muslims, all others are unfortunate in not accepting ALLAH (s.w.t.) as their God and hence not able to seek HIS forgiveness and hence remain with their sins unforgiven.

The Fourth Benefit : No person whoever has pronounced “SHAHADAH” and accepted ISLAMIC MONOTHEISM will remain in Hell permanently.

The Fifth Benefit : The MUSLIM who has accepted ISLAMIC MONOTHEISM will be having the knowledge and belief that certainly there is a final judgement day when he will be resurrected along with all mankind and given life to face the trial before ALLAH (s.w.t.) for all of his deeds with his intentions in doing them during his life time in this world.

He also knows that (a) nobody else will bear the burden of his sins and (b) no favouritism can be expected due to any special exclusiveness of divine blessings and favour.

He also knows death is not the end of his life and it is only a beginning for his ETERNAL life in the “HEREAFTER”.

For a true believer, this knowledge will be enough deterrent to prevent him from committing any sin or wrong action and also make him turn to ALLAH (s.w.t) with repentance pleading for HIS forgiveness as soon as he commits any sin or misdeed.

The Fifth Benefit is so crucial to humanity that ALLAH (s.w.t.) makes it as HIS Last and final message to humanity through his revelation 2:281.

2:281 And fear the day when all of you shall be brought back to ALLAH. Then shall every soul be paid fully what it earned and they shall not be dealt with unjustly.

With this last and final revelation ALLAH (s.w.t.) closes HIS last and Permanent scripture, ALQUR'AN. This revelation is not only the closing revelation of ALQUR'AN but also the end of all of HIS revelations to humanity sent through all of HIS Prophets starting from ADAM (a.s.) and ending with MUHAMMAD (s.a.s.)

With this ALLAH (s.w.t.) indicates that the most vital aspect to deter people from committing wrong deeds is the FEAR of the inevitable judgement DAY, When every individual by himself alone has to bear the responsibility for all of his actions with his intentions behind those actions. It is also succinctly pointed out that no favoritism will be shown to anybody in the fair judgement, for any reason what so ever.

CHAPTER 54
ISLAMIC LIFE

Islamic Life is based on two foundations.

- i) "IMAN" - the correct belief with understanding of Islamic Faith.
- ii) "AMILU SALIHATH" - Living thereafter with righteous deeds.

The first requirement of living ISLAMIC LIFE is having the correct Iman. No righteous deed has any value without Iman.

IMAN - ARTICLES OF ISLAMIC FAITH

- i) Belief in Allah (s.w.t.)
- ii) Belief in His Angels
- iii) Belief in His Revealed Scriptures
- iv) Belief in His Messengers
- v) Belief in the Day of Judgement and the life hereafter.
- vi) Belief in DIVINE PREORDAINMENT.

i) BELIEF IN ALLAH (s.w.t.)

- a) Allah (s.w.t.) is the Creator, Provider, Sustainer and Protector of all the beings and everything in the universe.
- b) ALLAH (s.w.t) is ONE and ONLY ONE.
- c) HE is absolute and ETERNAL without BEGINNING and without END.
- d) HE fulfills all the needs of all of HIS Creations by HIMSELF without needing the help of anything else.
- e) HE is unique and incomparable and nothing is like HIM.
- f) He begetteth not or is not Begotten
- g) He has no partners in his DOMINION
- h) He is the ONLY ONE to be worshipped and none others or nothing else has any right for worship.

The road to the knowledge of ALLAH (s.w.t.) begins and ends in WONDER and HUMILITY.

ii) BELIEF IN ANGELS

Angels are BEINGS created by ALLAH (s.w.t.) from light and are always carrying out the errands of ALLAH (s.w.t.).

They don't have any of the human needs like food, rest etc., and are not given any free will to choose anything on their own and act.

They are innumerable and only ALLAH (s.w.t.) alone knows their numbers.

They only obey ALLAH (s.w.t.)'s commands and carryout the jobs given to them.

iii) BELIEF IN REVEALED SCRIPTURES :

ALLAH (s.w.t.) has revealed many scriptures and some of their names like Tourath (TORAH) sabur (PSALMS) Ingeel (BIBLE) are given in his final scripture AL QUR'AN.

All of his previous scriptures are altered by additions, omissions and corrections and thus completely corrupted by human hands to the extent that they have lost the original message of ALLAH (s.w.t.) and thus have lost the sanctity of scripture.

Only AL QUR'AN remains pure exactly as revealed by ALLAH (s.w.t.) in its original language of revelation and is permanently protected by ALLAH (s.w.t.) HIMSELF from any corruption by human hands.

AL QUR'AN also confirms all the true messages of all the previous scriptures.

iv) BELIEF IN HIS MESSENGERS :

All messengers are chosen by ALLAH (s.w.t.) only.

Nobody can choose by themselves to become the messengers of ALLAH (s.w.t.), however much noble they may be.

All the messengers of ALLAH (s.w.t.) carried out the same task of preaching monotheism and bringing back the erring people of their tribes to the straight path of worshipping ALLAH (s.w.t.) alone and nothing else.

We should not show any difference among them.

There were wide variations in their mission like some were long and some were short and some faced enormous amount of hurdles and some others faced relatively small amount of hurdles.

The Final messenger Prophet MUHAMMAD (s.a.s.) was sent not to any particular tribe only but to the entire

humanity. As there are no more divine messages to be received and preached to mankind as ALLAH (s.w.t.) has already completed His Religion of ISLAM, there is no necessity for anymore messengers and hence ALLAH (s.w.t.) has declared that MUHAMMAD (s.a.s.) is the last messenger.

After MUHAMMAD (s.a.s.), ALLAH (s.w.t.) has made all MUSLIMS to be responsible for

- (i) Calling people to the Truth, and
- (ii) Striving to establish ALLAH (s.w.t.)'s rule.

v) BELIEF IN THE DAY OF JUDGEMENT :

ISLAM is the Religion of JUSTICE AND EQUALITY.

The Sheet Anchor of Islamic Justice is in the Knowledge and acceptance of the final day of Judgement when everybody beginning from ADAM (a.s.) and ending with the last human being to be born on this earth before the end of this world will be resurrected back to life and put to trial before ALLAH (s.w.t.) for all of their deeds with their intentions in committing them during their life time in this world.

Not even an iota of his good deeds or bad deeds will be left out from reckoning.

At the end of the trial an absolutely fair judgement will be delivered by ALLAH (s.w.t.)

There will not be any prejudice or favouritism in the judgement.

At the end of the judgement,

- i) Some people will go to HEAVEN, an unimaginably pleasant abode to stay for ever till eternity.

- ii) and some will go to HELL, the most intolerable place of abode to stay for ever till eternity.
- iii) and some others will go to HELL for a specified period of time according to their bad deeds, for taking the punishments and get released from there after that period and then sent to HEAVEN.

This, in nutshell, is what the judgement day holds for every human being born in this world.

vi) BELIEF IN DIVINE PREORDAINMENT :

Nothing happens in the universe except as has been preordained by ALLAH (s.w.t.).

ALLAH (s.w.t.) first created the "Pen" first and asked it to write The pen asked what it should write, ALLAH (s.w.t.) told it to write all that was decreed by HIM to happen till the DAY OF JUDGEMENT and beyond. It wrote and finished the book of Records called "ALLAUHUL MAHFUZ" - preserved tablet - containing all the events that are going to take place in the UNIVERSE from its creation to its destruction and beyond; It contains to the minutest detail of every event that are to occur. Everything in this universe will happen exactly according to this record only.

This is called the DIVINE PREORDAINMENT. Some people who are not having the correct understanding of this PHENOMENA ask why they should be held responsible for doing some sin or misdeed which they are only doing as per the DIVINE PREORDAINMENT.

The following is the clear explanation of the Phenomena and correct answer to their question.

Everything that are happening in this world like birth, death, floods, hurricane, storms, earthquake, Tsunami, pleasant or harsh weather etc etc are happening according to ALLAH (s.w.t.)'s PRE ORDAINMENT and nobody has got any "SAY" in it.

Everything a person does is as per his own choice and decision.

ALLAH (s.w.t.) has given clear information about good and bad deeds through HIS scriptures and preachings of HIS messengers.

ALLAH (s.w.t.) has given the knowledge to human beings to differentiate between right and wrong deeds and also the freedom to select for themselves the good or bad deeds.

What a person does in any given situation is as per his own free will only.

The preserved Tablet "ALLAUHULMAH FUZ" gives only the information of what the person is going to do in the particular situation and definitely not telling him what he should do.

The following small illustration will make the point absolutely clear.

Suppose there are 2 persons - A and B standing in a garden and an extremely beautiful dame passes in front of them. On seeing her 'A' immediately lowers his gaze down as per ALLAH (s.w.t.)'s commands. But 'B' continues to stare at her, savouring her beauty to satisfy his own vile desire ignoring ALLAH (s.w.t.)'s dictum. 'A' chose the good deed and 'B' chose the bad deed on their own accord. Hence they are responsible for their own actions.

The book of records "ALLAUHULMAH FUZ" has only record of the two actions as they are going to occur.

Thus the preordainment is the record of what is going to take place and not compelling anybody to do anything in any particular way.

CHAPTER 55

AMILU SALIHATH - SECTION - I

After achieving IMAN - the correct Islamic Faith, the next step for completing Islamic life is practicing “AMILU SALIHATH” - living with righteous deeds prescribed by ISLAM. It comprises of deeds commanded by ALLAH (s.w.t.) to be done, which have to be taken and put to practice and deeds prohibited by ALLAH (s.w.t.) which have to be avoided and deeds about which ALLAH (s.w.t.) has remained silent which are concessions which can be accepted.

Muslims are directed by Muhammed (s.a.s.) to avoid all the deeds prohibited by ALLAH (s.w.t.) completely and to do as much of the deeds commanded by ALLAH (s.w.t.) as it is possible to him.

The essential aspect of “AMILU SALIHATH” is doing the most appropriate deeds suitable for every situation which are acceptable to ALLAH (s.w.t.).

There are many evidences of RASULULLAH (s.a.s.) giving different rulings to different people on different situations regarding one and the same action which are all acceptable to ALLAH (s.w.t.) on the basis of appropriateness.

Some deeds are obligatory and must be performed compulsorily unless concessions are given for modifications. They are called the FIVE PILLARS OF ISLAM.

- 1) SAHADAH : Testimony of FAITH. Only after declaring SAHADAH a person becomes a Muslim.
- 2) SALAH : The five obligatory daily prayers.
- 3) FASTING : Observing fast during the whole month of RAMADHAN.
- 4) ZAKAT : A mandatory payment of a set percentage of one's financial surplus to any approved charity.
- 5) HAJJ: The pilgrimage to MAKKAH atleast once in one's adult lifetime if one is financially and physically capable of doing it.

**THE FIRST OBLIGATORY DEED IS SAHADAH
DECLARATION OF FAITH**

“I testify that there is NO GOD but ALLAH and I testify that MUHAMMED is the messenger of ALLAH”.

This has to be said sincerely with comprehension and correct understanding and completely relinquishing all of the previous beliefs and ideologies held by the person in his mind.

After becoming a muslim by declaring SHAHADAH, the muslim has to understand the meaning of ISLAM and being a MUSLIM.

The best of words are the words of ALLAH(s.w.t.) and the best of deeds are the deeds of MUHAMMED (s.a.s.).

The best of religion (Deen) is ISLAM as it is the Deen of ALLAH (s.w.t.) and not man made.

ALLAH (s.w.t.) has created human beings as HIS best

of creations and created most of other things for the benefit of human beings. He is providing every sustenance of human beings and is protecting them.

HE wants the human beings to live the best dutiful life of worshipping ALLAH (s.w.t.) only and showing gratitude for all of HIS benefactions.

Everybody have rights and commensurate duties and ISLAM wants nobody to harm other's rights while living.

All excesses like greed, covetousness, arrogance, selfishness and immoral sexual activities etc., are to be avoided and human beings should live moderately respecting and not trespassing on the rights of others.

THIS IS THE BEST OF LIVING STANDARDS THAT WILL PRODUCE HARMONY IN HUMAN BEINGS AND REMOVE DISCORD AND HATRED AMONG THEM.

In spite of the noblest guidance provided by AL QUR'AN and "SUNNATH" of Prophet MUHAMMED (s.a.s.) people are liable to fall into SINS AND MISDEEDS. To save themselves from hell fire for their misdeeds they have to repent and make "TAUBA" with ALLAH (s.w.t.) and seek HIS forgiveness. ALLAH (s.w.t.) is "GAFOORUR RAHIM" most forgiving and most merciful and ALLAH (s.w.t.) only has got the right to forgive sins and nobody else has got that right.

"TAUBA" is the greatest gift to muslims only as none can forgive sins, except ALLAH (s.w.t.).

Those who are not muslims are not believers of ALLAH (s.w.t.) and hence they don't have any correct path to get their sins pardoned and hence remain sinners until they face the JUDGEMENT DAY. On that judgement day they will get punished not only for all of their unpardoned sins but also for the most heinous sin of rejecting faith in ALLAH (s.w.t.) and associating others with ALLAH (s.w.t.) in their worship.

TAUBA - REPENTANCE

Whenever a person happens to fall into any misdeed or sin he has to make "tauba" to ALLAH (s.w.t.) by saying "ASTAGHFIRULLAH" as many times as possible. Apart from this he should say "ASTAGHFIRULLAH" one hundred times everyday for repenting for all known or unobserved misdeeds and sins committed during the course of the day and this was the practice of MUHAMMED (s.a.s).

Genuine Istighfar needs the person to feel ashamed of his misdeeds and feel genuinely sorry for having committed them and make a resolve to stop repeating them. In spite of this if the person happens to commit the misdeed again he has to make 'TAUBA' again and make a firmer resolve to avoid them and take more honest and determined effort for discontinuing the misdeed. If ALLAH (s.w.t.) wills HE will make the person to relinquish the misdeeds very soon.

ALLAH (s.w.t.) says "Human beings can get tired of sinning but ALLAH (s.w.t.) is not tired of forgiving"

Immediately after becoming a MUSLIM by declaring "SHAHADAH" the person has to i) stop eating all food items prohibited in ISLAM and eat only allowed foods which are called "HALAL" foods in Islamic parlance and ii) always keep body clean by taking bath after sexual or menstrual impurities and cleaning properly after urinating or defecating.

PROHIBITED FOODS

- i) Dead meat
- ii) blood poured forth (blood adhering to flesh or liver or such other internal organs are "halal").
- iii) Flesh of swine

- iv) Those slaughtered without pronouncing ALLAH (s.w.t.)'s name over it while slaughtering.
- v) Those killed by strangling, or by violent blow, or by headlongfall or being gored to death or partly eaten by wild animals.
- vi) If the life blood is still flowing and the solemn mode of slaughter in the name of ALLAH (s.w.t.) is carried out, it becomes "HALAL"
- vii) What the birds and beasts of prey trained to hunt, catch is "HALAL" if they are released for hunting in the name of ALLAH (s.w.t.).
- viii) FISH and LOCUST are halal even without pronouncing ALLAH (s.w.t.)'s name on them.

Islamic religious law (FIQH) has complete details of "haraam" or prohibited foods. All items sold by stores selling "HALAL" items can be used for foods.

THE SECOND OBLIGATORY DEED IS SALAH

The five obligatory daily prayers of worship performed at dawn, noon, mid afternoon, sunset and early night. To perform "SALAH" the first and foremost requirement is cleanliness of body.

- i) A bath washing of the whole body - has to be taken after every sexual impurity and also for women after coming out of all menstrual impurities.
- ii) cleaning properly after urinating or defecating.
- iii) Making ablution by washing hands, mouth, nose, face, forearms upto elbow, head and ears by wiping with wet fingers and washing the feet upto ankles.

Ablution has to be done before commencing SALAH. Ablution remains valid until it becomes null and void by

sleeping or vomiting or urinating or passing gas through anus or defecating.

Fresh ablution has to be done for purifying oneself for performing "SALAH".

"SALAH" consists of assuming various postures like standing, bowing, prostrating, sitting etc. simultaneously reciting certain words, or chapters or verses from AL QUR'AN. For full details about the method of performing SALAH you have to learn from "ALIMS" - Religious scholars - and reading and memorising from concerned books.

* See Note 1

THE THIRD OBLIGATORY DEED IS FASTING

Muslims have to observe Fasting during the whole month of Ramadhan. Fasting commences from the night of sighting of the first moon of Ramadhan and ends on the night of sighting of the first moon of Shawwal.

On everyday of Ramadhan month the fasting begins from the first light of dawn, ie., a little before early morning prayer and continues and ends at sunset.

During fasting time drink, sexual relations, tobacco, swallowing anything are all prohibited.

And also all sinful talks and deeds, and evil thoughts are to be scrupulously avoided, and always focusing on the spiritual aspects of ISLAM and reading AL QUR'AN.

* NOTE 1 :

If the personal considerations do not allow the person to disclose his acceptance of ISLAM openly and hence is not able to do "SALAH" openly he can either perform it privately if possible or skip it and make "TAUBA" for it until the time he can disclose his acceptance of ISLAM openly.

* See Note 2

THE FOURTH OBLIGATORY DEED IS ZAKAT

ZAKAT is a mandatory payment of a set percentage of One's financial surplus to any prescribed charity. This has to be given to any one or all of the following categories of muslims only.

- 1) **Fukara** : The poorest people who possess nothing and live on meagre earnings or on other's charities only.
- 2) **ALMASAKIN** : Poor people having insufficient means for their living and who restrain themselves from asking others.
- 3) The people employed to collect Zakat for the "BAITUL MAL" the Islamic treasury exclusively setup for collecting and distributing Zakat funds to the needy.
- 4) To attract the hearts of those who have been inclined towards ISLAM.
- 5) To Free the captives.
- 6) To those who are in debt.
- 7) To those who are striving in the cause of ALLAH (s.w.t.) by TEACHING ISLAMIC EDUCATION or FIGHTING FOR ISLAM or ENGAGED IN PROPOGATING ISLAM.
- 8) Stranded way farers.

* NOTE : 2

If you have to skip the fasting for any compelling reason, you have to feed a person for as many days as equivalent to your missed fasting days.

Zakat is mandatory only on adult, sane Muslims. Zakat is liable on Gold, Silver, Cash, Goods kept for trade, livestock, agricultural produce, yields from mines and hidden treasures.

- a) The rates of Zakat for gold, silver, cash and trading goods are 2.5 % of their value and to be given once in every year.

Zakat becomes payable only if the possessions exceed a minimum amount called "NISAB" and also if it remains in possession for a full year.

Below this NISAB and before completion of one year, no Zakat need to be paid.

The NISAB for gold is 87.5 grams

The NISAB for Silver is 612.5 grams.

The NISAB for cash and trading goods are the value of 612.5 grams of silver.

Exceptions:

Gold and Silver ornaments normally worn by ladies and children of the family, furniture, equipments, buildings, vehicles etc., used for businesses and personal needs, buildings used for residences and used for renting out, and lands used for agriculture are excluded from calculation of Nisab.

- b) The rate of Zakat for agricultural produce is
 - (i) 5% on yields from lands cultivated with lot of labour and expenses and lift irrigation from wells etc.
 - (ii) 10% on yields from lands irrigated easily from lakes, canals, or rain water etc.

Zakat for agricultural yields has to be paid from every harvest immediately after the harvest.

There is no NISAB or waiting period of 1 year. Whether it is own crops or share crops, Zakat has to be given as soon as the produce comes to the hands of the person.

- c) Rate of Zakat for yields from mines and hidden treasure is 20% which has to be paid on receipt of it.
- d) Zakat on Live stock is only on animals grazing on the farms. Animals which are fed in enclosed stables, cowsheds etc., and animals used for riding, farming, recreation or for carving a livelyhood, and all underaged animals are exempted from Zakat.

Zakat for horses is 2.5% of the value of the horses, one year old sheep or goat per every hundred of them, and one year old cattle for every 40 of them are the approximate rates of Zakat for livestocks.

Full details can be had from exclusive books on the subject.

The following conditions apply for clearing the Zakat liability.

- i) "NIYATH" or THE INTENTION that Zakat is being given has to be made at the time of giving Zakat.
- ii) The receiver of Zakat must be made the owner of the Zakat given to him.
- iii) Zakat can not be given in return for services rendered.
- iv) Zakat must be given to any of the specified muslim persons only who are eligible to receive Zakat.
- v) Zakat should not be given to the persons who are themselves liable to pay Zakat.

VERY IMPORTANT INFORMATION ABOUT ZAKAT.

Zakath amount is the poor peoples' lawful share of the financial surplus held by the possessor, who is responsible to pay the Zakat.

As soon as the Zakat becomes due the person who has to pay the Zakat becomes the debtor to the needy entitled people. Until he pays the Zakat as per the Zakat rules and clears his debt he will remain a debtor only.

The other voluntary charities (sadaqa) spent by the person, however much it may be, even if it is many many times more than his Zakat liability, will not clear the Zakat debt of the person.

Only payment of Zakat with the prescribed intention to the appropriate people entitled to receive Zakat will clear the Zakat debt.

Nobody can spend the Zakat money for any other cause however noble a cause it may be, including construction of mosque, simply because it is not their money.

Any body who wants to spend on voluntary charities can spend only from his own share of his financial surplus.

THE FIFTH OBLIGATORY DEED IS HAJJ

This is the pilgrimage from 8th to 12th of DHUL HAJJ , the 12th month of muslim (ISLAMIC) calender, to the house of ALLAH (s.w.t.) at MAKKAH.

It has to be performed atleast once in one's adult lifetime, if one is physically and financially capable of doing it.

Every ritual of HAJJ has got a great symbolic meaning and prescribed method of performing it. A person who wants to perform Hajj pilgrimage has to study thoroughly, before he embarks on the pilgrimage and acquire a thorough knowledge of the methods of performing the rituals correctly. This thorough knowledge is very essential for performing the Hajj correctly and completely and to make it acceptable to ALLAH (s.w.t.).

This is a very great religious duty conferring a magnificent reward on the person performing HAJJ. An accepted HAJJ wipes out all of his previous sins and makes him as sinless as he was on the day of his birth.

* See Note 3

* NOTE : 3

Hajj cannot be performed secretly and hence you have to wait till you can openly disclose your acceptance of ISLAM.

CHAPTER 56

AMILU SALIHATH - SECTION - II

Apart from the five obligatory deeds of Islam there are some more equally important deeds for muslims to practice. Non-observance of these deeds becomes a major sin leading to grave punishments in this life as well as in the life here after.

The first and foremost of them is treating parents with kindness and utmost respect.

Be kind (with "IHSAN") to parents, Don't say a word of contempt or repel them. Address them in terms of honour and out of kindness lower to them the wings of humility and pray to ALLAH (s.w.t.) for HIS mercy on them.

(17:23,24)

ALLAH (s.w.t.) uses the word "IHSAN" to be shown to parents. IHSAN is a station above justice when one gives more than the right to others with the feeling of generosity, forgiveness and sympathy.

Show gratitude to them and it is only second to showing gratitude to ALLAH (s.w.t.). (31:14)

There is no other deed which brings people closer to ALLAH (s.w.t.) than kind treatment and respect towards mother.

The greatest sin next only to associating partners to ALLAH (s.w.t.) is disobeying parents.

A muslim can disobey his parents only against their instructions to associate partners to ALLAH (s.w.t.). Apart from this a muslim has to bear company with his parents in their life with justice.

The second most important deed next to treating parents kindly is completely removing pride from heart because having even an atom's weight of pride in heart will prevent entry to paradise.

Pride is to completely disregard truth and to scorn by looking down on other people and pride is the desire to exalt themselves in the earth.

Even allowing one's garments to trail on the ground out of arrogance is prohibited.

Instead of pride, modesty and humility should adorn the hearts of muslims.

The following are the OTHER MOST SERIOUS PROHIBITED MISDEEDS to be avoided completely.

- i) Killing a person without a just cause.
- ii) a) Committing adultery. Committing adultery with neighbour's wife is worse than committing adultery with ten women.
b) Adultery committed by old man is most heinous.
- iii) Being a bad neighbour.

The person from whose evil his neighbours does not feel safe, will not enter Paradise and his good deeds are not acceptable to ALLAH (s.w.t.).

- iv) Breaking kinship.
- v) Bearing false witness.
- vi) Oppressing others.
- vii) Consuming intoxicants.
- viii) Giving interest, taking interest and standing witness for deals connected with interest.
- ix) Leaving debt without arrangement for payment.

Even MARTYRS who are exempted from all questioning on judgment day are still answerable for their unpaid debts.

- x) Eating orphan's property.
- xi) Accusing chaste women.
- xii) Spreading malicious gossip.
- xiii) Attacking a muslim's honour unjustly.
- xiv) Bearing resentment towards his brother .
- xv) Insincerity and deceitfulness in his responsibility towards those entrusted under his authority.
- xvi) Lying by a king.
- xvii) Fleeing from battlefield.
- xviii) Reminding people of one's charity.
- xix) Practising magic or witchcraft.
- xx) Selling goods by means of making false oaths, or using incorrect weights and measures while buying or selling.

Other prohibited bad deeds to be avoided

Cheating,

Deceiving,

Betraying,

Envyng,

Not keeping up promises,

Insincerity with others,

Speaking obscenities,

Making hurtful fun of others,

Interfering in matters which does not concern him.

Being a hypocrite, or a sycophant or a Boaster.

CHAPTER 57

PERFECT MUSLIM

The perfect muslim is a perfect slave of ALLAH (s.w.t.) with all of his affairs controlled and guided by ALLAH (s.w.t.)'s commandments only.

He acquires the perfect "IMAN" - The Islamic faith-as prescribed by Islam, avoids all that are prohibited by ALLAH (s.w.t.), performs as much of deeds prescribed by ALLAH (s.w.t.) as is possible for him.

He never transgresses the limit set by ALLAH (s.w.t.) and he follows ALLAH (s.w.t.)'s commands and guidances very willingly and with no hesitation or reservation even when they are contrary to his own desires. It is the absolute submission and complete obedience to ALLAH (s.w.t.) and HIS messenger. He loves ALLAH (s.w.t.) so much and values HIS pleasure as the GOAL of his life that he always guards himself from offending HIM even momentarily by any of his contrary actions. To him ALLAH (s.w.t.), and HIS prophet

MUHAMMAD (s.a.s.), and striving in HIS cause are dearer than his parents sons, brothers, mates, kindred and his wealth his commerce and his dwellings.

He knows that every "Nihamath" - Bounty-like his body, mind, soul, life, health, wealth, wisdom, family etc., which are given to him by ALLAH (s.w.t.) is a trust and he has got responsibilities and duties for everyone of them and he has to fulfil them keeping the correct balance between them.

He knows that to fulfil this onourous task, he is in constant need of the help of ALLAH (s.w.t.) without which he can never achieve success. This makes him to remember ALLAH (s.w.t.) constantly and put his complete trust in HIM only. To show his gratitude for all of the benefactions conferred on him by ALLAH (s.w.t.) he worships HIM regularly and performs all of the ISLAMIC DEEDS very willingly.

This is the foundation of a perfect muslim's life.

Apart from the acts of worships, the perfect muslim adheres to every teaching of ISLAM in all walks of his life. By this every one of his daily work becomes an "IBADAH" - WORSHIP.

He keeps the balance between body, mind and soul in their development. He does not allow one aspect to suppress or overtake the other aspects.

He is moderate in both food and drinks. He eats "HALAL" (permitted) foods only. He keeps his body clean and healthy by removing unnecessary hairs, trimming nails etc. He sleeps early and wakes up early and maintains a healthy lifestyle. He avoids intoxicants, drugs and stimulants.

He exercises moderately, dresses in clean cloths, wear perfume, presents neat and attractive appearance. He combs his hair and styles it nicely.

He does not go to congregational prayers after eating pungent vegetables which emanate bad breath.

He shows no extravagance or niggardliness in spending.

He is never proud and never looks down on others.

He seeks knowledge for enhancing his true fear of ALLAH (s.w.t.).

He is either a scholar or a seeker of knowledge. He is proficient in his speciality and also acquires information about other fields. He tries and learns other languages.

As often as possible he indulges in "ZIKR" - remembrance of ALLAH (s.w.t.) with humility by repetition of HIS names and HIS praises to come out of evil thoughts and to purify his soul and to clean his heart.

He performs worship correctly with presence of mind and obedience and fear of ALLAH (s.w.t.).

He repeats "DUA" - supplications - frequently.

He chooses friends carefully and always keeps company with righteous people who will teach one another and him about Truth (Haqq) and patience and constancy (sabr). He joins religious gatherings to enhance and refine his Islamic concepts.

THE PERFECT MUSLIM WITH HIS PARENTS.

He will show the utmost compassion love, respect and kindness to his parents.

He will lower his voice in the presence of his parents for the sake of politeness. He will be always grateful and faithful to them and approach them with a pleasant and smiling face.

When they are with him in their old age, he will not utter even one word of disrespect for any reason and only show them the affection and care which they require.

He will not disobey parents except in their advice to do "shirk" - setting up partners to ALLAH (s.w.t.).

He will give money in charity on behalf of parents and often make "DUA" for them. He will always respect parents' friends and relatives in their life time or after that.

THE PERFECT MUSLIM WITH HIS FAMILY.

Islam does not allow sex without marriage and hence subsequent generations cannot spring up without marriage. Marriage is an eternal natural relationship and a union of souls.

The perfect muslim understands that husband and wife are interdependent and have to live together with unity, with love and mercy, with harmony and tolerance, cooperation with mutual advice. Both husband and wife have got their rights and appropriate responsibilities.

Rights of husband -responsibilities of wife

wife should be chaste and uphold the honour of the family. She should not allow any one into the house whom the husband dislikes.

when he is away she should be faithful and loyal to him and should not do something with herself or with his wealth which the husband dislikes

when he tells her to do something she should obey.

she is responsible as a life partner to her husband in brining up the next generation and make life more pleasant and enjoyable.

Rights of wife-responsibilities of husband

Husband should feed and cloth his wife well.

He has to treat the wife kindly and decently.

He has to tollerate her mistakes and faults, recongnizing that they are part of her nature.

He has to understand and respect her feelings and help her to make up for her failings and weaknesses. Woman is like rib bone and will break if attempt is made to straighten it and so he has to learn to enjoy inspite of her crookedness.

He should not criticize her in front of others because it makes her extremely hurt.

He should not criticize food and should eat if he likes it or leave it if he does not like.

Husband should make the wife feel that she is living with a strong, genorous, tollerant husband who will meet all her legitimate needs as long as he is able.

The one most important act to be practiced by the husband is balancing between pleasing both mother and wife with fairness and giving each their due status.

The perfect muslim will be a successful leader of his family, a strong and likeable personality with noble attitude, a tolerant forgiver of minor mistakes.

He will be strong in adhering to the laws of ALLAH (s.w.t), with determination to apply them to every member of his family.

He is generous without extravagance and spends willingly and generously on family and children.

He gives children a good solid upbringing with islamic education.

He instructs children to pray when they are seven and hit them at the age of ten if they don't pray.

He will not be stern towards his children and treat them in a rough and mean fashion even if his nature is to be grim and reserved.

He will say words of love and care and demonstrate affection and compassion towards his children and get obedience from their hearts based on love, respect and trust and not based on violence and cruelty.

He will be lenient without being weak and strict without being cruel. He will be alert and intervene when necessary either to encourage or put a stop to something as needed.

He will not discriminate between children and between sons and daughters. He knows that daughters brought up well will be a shield for him against hell fire.

HE KNOWS THAT THE GREATEST FORM OF CHARITY IS SPENDING FOR THE DAUGHTER WHO HAS COME BACK TO HIM AND HAS NO OTHER BREAD WINNER.

Finally parents should be willing to make sacrifices for the sake of their children and do their best for them.

The perfect muslim with relatives.

The perfect muslim upholds kinship knowing fully well that ALLAH (s.w.t) takes care of those who take care of kinship, and cuts off those who cut kinship off and also hasten for them punishment in this world apart from what awaits them in the HEAR AFTER.

He also knows that breaking kinship is such a severe sin that even MERCY does not descend on the group in which there is even one person who breaks the ties of kinship.

He also knows that upholding kinship will extend his life and increase his wealth

With this knowledge he maintains ties of kinship even if they are not muslims and even if they fail to respond.

The perfect muslim with his neighbours.

The perfect muslim knows that Islam gives a very great benevolent status to neighbours because every society is made up of neighbours only and without good neighbourly relationship no harmonious society can be formed.

He also knows that not treating the neighbours well will certainly lead him to hell fire because ALLAH (s.w.t.) will not accept any of his other good deeds

So he will treat his neighbours in the best way possible.

He will be generous both to muslim and non muslim neighbours and will not harm or annoy them but make them feel that their lives, their honour, their wealth and their beliefs are safe and secure with him.

He will conceal the neighbour's faults and protect his honour and speak about his good aspects only and bear his disturbances with patience as far as possible.

He will not repay a bad neighbour with bad deeds.

He will exchange small or big gifts with his neighbours starting from his nearest neighbour.

He will not eat his fill when he knows that his neighbour is hungry.

He will lower his gaze from the neighbour's women folk and keep away from everything that may harm his neighbour or make him suspicious.

He will certainly not commit adultery with neighbour's wife or steal from his house.

He will help him in his difficulty, share his joys and sorrows, visit him in his illness and console him; follow his bier if he dies; comfort his family and take care of them.

The perfect muslim with society.

The perfect muslim is sincere in all his dealings and will always do justice.

He will live with the best of attitudes towards others, which encompasses all the Islamic virtues of modesty, patience, gentleness, tolerance and forgiveness, sincerity, cheerfulness, truthfulness keeping up promises etc.

He will be loving and not cold, loyal and will not betray, sincere and does not cheat, reliable, trustworthy and never lies, gentle never harsh, tolerant and forgiving, does not carry grudge or stab in the back, appropriately generous and prefers others to himself as much as possible.

He will not remain estranged from a believer for more than three days or bear resentment towards him. He will follow Islamic etiquette in eating, drinking, giving SALAM, visiting people entering their homes and sitting with them and in other social activities. In a gathering he will sit in the available place and will not push through.

He returns favours and be grateful for them. He accepts invitations and tells his love to whom he loves. He honours the elders, shows compassion to young ones and pay due respect to the scholars and distinguished people.

He will speak good or keep silent. He likes for the brothers and neighbours what he likes for himself. He will prefer brothers who are virtuous believers over himself, loving them without any worldly interest or ulterior motives.

He is keen to do good to people and protect them from harm and always tries to make them happy.

He mixes with people and bears their mistreatment with patience and makes them feel comfortable with him.

He always strives to reconcile between muslims. He tries to make things easy and not make them hard.

He will not engage in malicious gossip stirring up trouble and spread everything he hears or speak on the basis of suspicion.

He will not seek out others faults or spy or envy or hate and turn away. Rather he will cover up a muslim's fault when he sees it.

He will never use obscene language or curse or hurtful jokes.

He will avoid arguments and be straightforward

He will never slander or be a two faced coward by gossiping behind their back and smiling in their face.

He will always come to the aid of one who is going through hardship. He will defend his brother if he is wronged and stop him if he is doing wrong.

He will be sincere towards people, safeguard their reputation, honour and wealth in their presence as well as in their absence.

He knows that modesty in the purest form is human greatness of the highest degree. Hence he will humble himself for the sake of ALLAH (s.w.t.)

He will not oppress others or bear false witness. He will speak with knowledge only and form judgements with certainty only. He will give advice only when asked for.

He will not ask too many questions and waste time and money.

He will remain silent for lengthy periods knowing that harvest of the tongue is the greatest cause for falling into hell.

He knows piety will lengthen his life and charity will prevent a bad death.

He will never go to soothsayers or follow superstitions.

He will always measure all of his thoughts, actions, habits, and customs against islamic standards and correct them.

In short, to sum up - he will be the antithesis of the present day so called civilised person who is driven by naked and vulgar selfishness and self indulgence and who is from the sink of hypocrites, adulterors, homosexuals, drugtakers and prostitutes.

The perfect muslim will be first a human being and not a beast and last he will be the best human being.

That is a perfect muslim and what Islam wants him to be. UNTIL it is established in the entire humanity, CONFLICT and TENSION will not cease.
